PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed support, availability, and performance of critical core business applications including **ERP systems and enterprise platforms** using **change control processes, configuration management, and SLA monitoring**, reducing unplanned downtime by **35%** and maintaining **99.2% uptime** across interconnected systems supporting 200+ end-users.
- Assessed, documented, and implemented system configuration changes across **ERP modules, business systems, and operational platforms** using **structured change-control workflows, UAT coordination, and post-implementation triage**, ensuring **100% accuracy in data integrity** and alignment with business requirements across cross-functional teams.
- Performed first-line testing of system upgrades, patches, and configuration changes, coordinating **User Acceptance Testing (UAT)** and training delivery across **40+ business users** to ensure successful deployment and consistent system adoption, reducing post-go-live defects by **42%**.
- Developed and maintained comprehensive system documentation including **process maps, user guides, training materials, and onboarding support** using **Confluence and SharePoint**, ensuring knowledge accessibility and reducing new-user ramp-time by **50%** across all business system platforms.
- Supported Business Systems Manager in gathering and analysing business requirements, developing **ad hoc reports and BI dashboards using Power BI and Tableau** with **DAX measures and data modelling**, delivering **15+ executive KPI dashboards** that improved decision-making visibility and data-driven compliance reporting.
- Maintained **GDPR and Data Protection Acts compliance** across all RDS data workflows, conducting **data standard audits, regulatory impact assessments, and change-control documentation** to ensure adherence to privacy regulations while managing **production incident response** and helpdesk ticket resolution with **95% first-contact resolution rate**.

SKILLS

Business Systems & ERP Support – ERP configuration and maintenance, enterprise business systems support, change-control management, system availability and performance monitoring, SLA management.

User Support & Training – User Acceptance Testing (UAT), training delivery, onboarding support, user guides, process documentation, helpdesk ticket management, independent problem-solving.

Business Intelligence & Reporting – Power BI, Tableau, DAX measures, data modelling, Power Query, ad hoc reporting, dashboard development, business analytics.

Data Management & Compliance – GDPR, Data Protection Acts, data standards, data integrity, regulatory compliance, audit trails, data warehousing, SQL.

Technical & Systems – SQL (PostgreSQL, MySQL, Oracle), REST APIs, system integrations, Docker, AWS (EC2, S3, Lambda, CloudWatch), Jenkins CI/CD, Git, Linux, Jira, Confluence.

Domain Knowledge – Payments processing, SWIFT messaging (MT/MX), ISO 20022 message structures, SEPA, cross-border payments, enterprise integrations, financial-services production environments.

Professional & Soft Skills – Problem-solving, multi-task prioritization, process orientation, attention to detail, cross-functional collaboration, requirements gathering, stakeholder management, IELTS Academic Band 7.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Membership & ERP Integration Platform (HCL Technologies)

- Architected and deployed a unified **ERP and membership-platform integration solution** connecting core business systems across finance, operations, and member management, eliminating **8 manual data-sync processes** and reducing daily reconciliation time by **65%**.
- Implemented **system configuration changes, change-control workflows, and UAT coordination** across **6 interconnected modules**, delivering training to **120+ staff members** and achieving **99.5% system uptime** within the first **6 months** post-implementation.
- Developed **Power BI dashboards and ad hoc reports** for operations, finance, and executive teams using **DAX measures and data modelling**, capturing **50+ KPIs** and enabling real-time visibility into member lifecycle, revenue trends, and system performance metrics.
- Created comprehensive **process maps, user guides, and onboarding documentation** using **Confluence**, reducing support tickets by **38%** and enabling end-users to resolve **45% of issues independently** without helpdesk escalation.
- Ensured **GDPR and Data Protection Acts compliance** throughout the integration by designing **data governance workflows, audit trails, and regulatory-aligned configuration standards**, achieving **100% audit compliance** across all membership and financial data flows.

Payments Operations & SWIFT Message Monitoring Dashboard (HCL Technologies)

- Designed and maintained a **production monitoring and alerting dashboard** for **SWIFT messaging (MT/MX) and payments-operations workflows**, providing real-time transaction-flow visibility and operational alerting for **5,000+ daily payment messages** across **ISO 20022, SEPA, and cross-border payment channels**.
- Executed **SLA-driven production support and P1/P2 incident response** using **Splunk and CloudWatch monitoring**, achieving **99.8% message delivery success rate** and **<15 minute** incident resolution time for critical payment processing failures.
- Developed **SQL data-validation scripts and ad hoc reports** to reconcile payment reconciliation workflows and tokenization data flows, ensuring **100% data integrity** and regulatory compliance with **GDPR and financial-services audit requirements** across all banking-client transactions.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
