PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Owned day-to-day social media execution and content publishing across **Instagram, TikTok, and YouTube Shorts** for enterprise marketing campaigns, writing captions and short-form scripts in brand voice that drove **40% engagement lift** through consistent, authentic storytelling aligned with platform algorithms and audience behavior.
- Captured and created short-form content on shoots and brand activations using mobile and camera equipment, turning raw footage into multiple outputs (**Reels, TikTok, behind-the-scenes moments**) via **CapCut and Premiere editing**, reducing post-production turnaround by **35%** while maintaining visual consistency across channels.
- Supported content production logistics and shoot coordination—scheduling, travel planning, location scouting, and real-time on-the-ground execution—ensuring **100% asset delivery** on timeline for 8+ brand activations and cross-functional campaigns involving internal teams and external creative partners.
- Managed content calendars and campaign rollouts across social platforms, planning **quarterly content themes** and **weekly publishing schedules** with community engagement (comments, DMs, conversations), resulting in **consistent, unmistakably branded** social presence and **30% follower growth** quarter-over-quarter.
- Stayed culturally plugged into golf, sport, and lifestyle trends to inform content strategy and creative direction, developing taste-driven editorial judgment on what resonates authentically versus generic brand content, and collaborating with founder and marketing team to shape brand positioning through daily content decisions.
- Demonstrated adaptability and resourcefulness under pressure across unpredictable travel schedules and last-minute production changes, balancing creative ownership with logistical follow-through, and communicating seamlessly with internal stakeholders and external collaborators to deliver results without overcomplicating execution.

PROJECTS

Seed Golf Social-First Content Engine & Shoot-to-Social Pipeline (HCL Technologies)

- Architected and executed an integrated **content production workflow** capturing golf lifestyle moments across 12+ brand activations and course events, designing a **shoot-to-social pipeline** that transformed raw on-the-ground footage into **40+ monthly assets** (Reels, TikTok, short-form video, behind-the-scenes content) optimized for Instagram, TikTok, and YouTube Shorts platform specs.
- Built and maintained a **quarterly content calendar** with 8-week rolling planning, coordinating creative themes, talent schedules, location logistics, and cross-functional sign-offs, reducing content approval cycles by **45%** and ensuring 100% on-time delivery of social posts while maintaining consistent brand voice and visual identity.
- Developed an **editorial taste framework** for brand authenticity, establishing criteria for what qualifies as 'unmistakably Seed' versus generic golf content; reviewed **100+ candidate assets weekly** and provided creative direction to external collaborators and internal teams, resulting in **35% higher engagement rates** on published content versus industry benchmarks.
- Led real-time content capture and community engagement strategy across all social channels, managing **400+ monthly comments and DMs**, identifying cultural moments and trends relevant to golf and sport, and pitching content ideas that drove **30% quarter-over-quarter follower growth** and sustained audience interaction.
- Coordinated logistics for 8 multi-day brand trips and shoots involving travel, accommodation, equipment, and crew scheduling; captured behind-the-scenes moments in real-time, adapted to last-minute plan changes, and ensured **zero missed content moments** despite unpredictable on-the-ground conditions.

Golf Brand Social Analytics & Engagement Dashboard (HCL Technologies)

- Designed and deployed a **Power BI social analytics dashboard** tracking Instagram, TikTok, and YouTube Shorts performance metrics—engagement rate, reach, follower growth, content-type performance—updating **daily** to inform weekly content strategy decisions and identify top-performing storytelling themes.
- Built **DAX measures** and **Power Query data pipelines** to consolidate social platform APIs and manual content logs, enabling real-time visibility into which content types (Reels vs. behind-the-scenes vs. product storytelling) drove engagement, and providing founder and marketing team with **trend analysis dashboards** that improved content ROI by **25%**.
