PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Led **User Acceptance Testing (UAT)** and **Model Office testing** for enterprise system enhancements and new client onboarding across **transfer agency operations**, designing and executing comprehensive **test plans** that validated operational readiness across **global operating models** and **connectivity workflows**, achieving **100% sign-off** on all UAT deliverables and reducing post-go-live defects by **40%**.
- Conducted **due diligence**, **gap analysis**, and **requirements gathering workshops** with cross-functional stakeholders including Sales, Service Delivery, Client Services, and operations teams to establish exact client requirements, document workflows, and design **operating models** and **handoffs between locations** for **conversions**; facilitated **15+ client project calls** and internal governance meetings to ensure alignment and risk mitigation.
- Managed **issue tracking**, **risk identification**, and **proactive resolution** of operational readiness blockers throughout the project lifecycle, quantifying risks and determining workarounds with **stakeholder agreement**; produced **Non-Standard Process reports** reviewed with Risk and Compliance, ensuring regulatory alignment and **change-control adherence**.
- Supported **transfer agency operations** teams in creation, maintenance, and execution of **model office test plans** for large-scale conversions, coordinating testing strategy and **end-to-end conversion workflows**; delivered detailed **status reporting** on model office progress and streamlined onboarding processes by documenting checklists, procedures, and process improvements that reduced conversion timelines by **18%**.
- Reviewed and provided feedback on **conversion-related business requirements documents**, clarified specifications with **Conversion Business Analysts**, and ensured **successful delivery** of business needs enhancements by conducting testing and research to respond to client inquiries with accurate solutions; worked within **Transfer Agency Project Office structure** and enforced standard templates and resource procurement.
- Leveraged **Power BI dashboards** and **operational reporting** to deliver real-time visibility into **model office testing status**, conversion milestones, and issue resolution across interconnected systems; created **data models** and **DAX measures** for stakeholder KPIs, improving decision-making velocity by **35%** and enabling proactive escalation of discovered issues across the onboarding program.

SKILLS

Operations Readiness & Transfer Agency – User Acceptance Testing (UAT), Model Office Testing, Transfer Agency Operations, Global Operating Models, Conversion Management, Due Diligence, Gap Analysis, Operational Implementation Programs.

Project Management & Governance – Requirements Gathering, Workshops & Facilitation, Issue Tracking & Management, Risk Identification & Mitigation, Change-Control Management, Project Governance, Stakeholder Management, Documentation & Sign-Offs.

Business Analysis & Client Liaison – Client Requirements Analysis, Conversion Business Requirements, Workflow Design, Handoff Documentation, Non-Standard Process Reporting, Client-Facing Project Support, Cross-Functional Collaboration.

Business Intelligence & Data Modeling – Power BI, DAX, Power Query, Tableau, Data Modeling, Data Warehousing, Executive Dashboards, KPI Reporting.

Enterprise Systems & Integration – ERP Integration Support, REST API Integrations, PostgreSQL, MySQL, Oracle, System Interconnectivity, Database Management.

Technical & Data Stack – Python, SQL, Java Spring Boot, AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Jenkins, Git, Jira, Confluence.

Domain & Regulatory Knowledge – Funds Industry, Payments Processing, SWIFT (MT/MX), ISO 20022, SEPA, PSD2, GDPR, Compliance & Risk Management.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin	02/2026
--	----------------

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India	01/2021
---	----------------

PROJECTS

Transfer Agency Client Onboarding & Model Office Strategy Platform (HCL Technologies)

- Architected and executed **end-to-end operations readiness strategy** for a **Tier-1 global fund transfer agency client conversion**, designing **global operating models**, **location handoffs**, and **model office testing workflows** across **12 geographic regions**; delivered comprehensive **UAT test plans** and **non-standard process documentation** reviewed by Risk & Compliance, achieving **zero post-go-live operational escalations**.
- Conducted multi-phase **due diligence and gap analysis** workshops with Sales, Service Delivery, and Client Services teams, capturing **150+ detailed requirements** and translating them into **conversion business requirements documents** that were formally signed off by **10+ stakeholder groups**; identified and mitigated **18 critical operational risks** through proactive stakeholder engagement and workaround design.
- Coordinated and led **model office testing execution** for **3 major system enhancements** and **2 new client launches**, designing test strategies that validated **fund transfer flows**, **settlement processes**, and **compliance workflows**; managed **issue tracking and resolution** for **47 identified defects**, achieving **100% closure** with stakeholder sign-off prior to production cutover.
- Built **Power BI operational dashboards** to deliver real-time visibility into **model office testing progress**, **conversion milestone tracking**, and **stakeholder KPIs** using **DAX measures** and **data modeling** techniques; enabled **executive reporting** that reduced status-update meetings by **40%** and accelerated decision-making for **17 client conversions**.
- Streamlined **transfer agency onboarding processes** by documenting standardized **checklists**, **procedures**, and **process templates** within the **Transfer Agency Project Office structure**; created reusable **requirements gathering frameworks** and **UAT best-practice guides** adopted across **8 concurrent client engagements**, reducing average conversion timelines by **22%**.

Payments Operations Dashboard & SWIFT ISO 20022 Migration Program (HCL Technologies)

- Supported **production operations** and **UAT coordination** for a **SWIFT messaging and payments-operations dashboard** serving a tier-1 banking client, managing **change-control processes** and **system configuration updates** across interconnected payment processing platforms; ensured **GDPR compliance**, **audit-trail integrity**, and **SLA adherence** (99.95% uptime) for **daily payment transaction volumes of 50,000+**.
- Led **ISO 20022 message flow migration** and **SEPA payments processing** analysis, documenting **conversion requirements** and coordinating **stakeholder workshops** with banking operations teams and regulators; validated **message format transformations** and **cross-border payment workflows** through comprehensive testing, supporting **instant payment** and **tokenization capability** launches.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
