PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided **2nd and 3rd level network infrastructure support** for enterprise applications at HCL, analyzing **alerts and events** from **Splunk, Dynatrace, and CloudWatch** monitoring platforms; resolved P1/P2 incidents with **99.2% SLA compliance** across production environments, coordinating with senior engineers on root-cause analysis and remediation across **routing, switching, and load-balancing** components.
- Designed and executed **network infrastructure projects** and **system implementations** across multiple sites using **Cisco, Palo Alto, Checkpoint, and F5** technologies; performed **configuration and troubleshooting of routers, switches, firewalls, and load balancers** during UAT and go-live phases, reducing deployment time by **35%** through automated validation and **test plan development**.
- Managed **change-control** processes for network infrastructure and telecom component updates; coordinated with vendors on **Palo Alto, Checkpoint, F5, and Gigamon** infrastructure procurement and deployment, ensuring **disaster recovery** planning and **security integrity** audits across interconnected enterprise systems.
- Developed and implemented **test plans for IT software and systems** with **quality standards and validation techniques**; examined IT systems for **potential threats to security** and documented recovery procedures; **dealt with and reported on breaches in security**, achieving zero critical vulnerabilities in **3 consecutive audit cycles**.
- Performed **scheduled maintenance** and **support during system installations** across Tralee and regional telecommunication rooms; maintained **working condition of network infrastructure** components including **switching, routing, load balancing, and cloud logistics**; reduced infrastructure downtime by **42%** through proactive monitoring and preventive maintenance protocols using **ServiceNow platform** ticketing.
- Provided **2nd level support** to IT teams on daily operational requests and during **project implementations**; collaborated cross-functionally with network operations and security teams on **DNS, NAT, OSPF, BGP, EIGRP, LACP, CDP, UDLD, and VPC** configurations; facilitated vendor meetings and delivered technical recommendations on **software/system quality** improvements for **business continuity**.

SKILLS

Network Infrastructure & Telecom – Routers, Switches, Firewalls, Load Balancers, Routing Protocols (OSPF, BGP, EIGRP), NAT, LACP, CDP, UDLD, VPC, DNS, DHCP.

Network Security & Vendor Platforms – Palo Alto, Checkpoint, Cisco, F5, Gigamon, Security Threat Assessment, Disaster Recovery Planning, Breach Reporting.

Network Operations & Monitoring – Splunk, Dynatrace, CloudWatch, ServiceNow, Alert Analysis, Event Management, SLA Management, Incident Response.

Project Delivery & Implementations – Network Infrastructure Projects, System Installations, Change-Control Management, Test Plan Development, Quality Standards, UAT Coordination.

Cloud & Automation – AWS (EC2, S3, Lambda, CloudWatch), Cloud Logistics, Docker, CI/CD Pipelines (Jenkins), Automation Scripting.

Enterprise Systems & IT Support – ERP Integration Support, Cross-System Integrations, Telecom Room Maintenance, Vendor Management, Technical Documentation.

EDUCATION AND TRAINING

PROJECTS

Multi-Site Network Infrastructure & Firewall Consolidation Platform (HCL Technologies)

- Architected and deployed **network infrastructure** consolidation spanning **switching, routing, security, and load balancing** across 8 regional sites for SMBC Americas Division; integrated **Palo Alto, Checkpoint, F5 load balancers, and Gigamon traffic visibility** into unified **ServiceNow-based management platform**, reducing infrastructure provisioning time from **6 weeks to 10 days**.
- Developed comprehensive **test plans and quality standards** for firewall rule migration and **BGP, OSPF, EIGRP routing protocol** validation; executed **disaster recovery testing** across all sites with **100% success rate**, documenting **security threat assessments** and remediation playbooks for **potential IT system vulnerabilities**.
- Implemented **CloudWatch and Splunk-based monitoring dashboards** to track **network alerts and events** from routers, switches, and load balancers; established **SLA-driven incident response workflows** reducing **P1 resolution time by 48%** and enabling proactive **scheduled maintenance** windows for **LACP, CDP, UDLD, DNS, and DHCP** component updates.
- Coordinated cross-functional vendor partnerships with **Cisco, Palo Alto, and F5** teams on technical requirements and **change-control** procedures; facilitated **UAT and go-live support** across capital markets and trading floors, ensuring **99.5% uptime** during **business-critical system implementations**.

Enterprise Banking Payment Operations & SWIFT Network Monitoring Dashboard (HCL Technologies)

- Delivered **2nd and 3rd level production support** for SWIFT messaging and payments-operations network infrastructure supporting cross-border and SEPA transactions; monitored **network routing, switching, and telecom infrastructure** reliability using **Dynatrace and CloudWatch**, maintaining **99.7% network uptime** across payment processing flows.
- Collaborated with banking operations and compliance teams on **ISO 20022 message flow** network requirements and **security integrity** validation; performed **configuration and troubleshooting of routers and switches** to ensure **DNS, NAT, and load-balancing** optimization for real-time transaction flows, reducing latency by **32%**.
- Developed **test plans** for network security configurations supporting **GDPR and data protection** requirements; examined IT systems for **potential threats** and documented **disaster recovery procedures** aligned with regulatory audit trails and financial-services operational standards.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
