PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered operational **SQL / MySQL query building** and **data management** across enterprise databases to support production dashboards; designed and optimized **complex reporting models** for P1/P2 incident triage and SLA reporting, reducing mean time to insight by **35%** through automated data collation and schema refinement.
- Built **Power BI dashboards** for real-time operational KPI tracking (call queue performance, staffing adherence, shrinkage analysis, agent AHT / resolve rate / transfer rate metrics) across banking operations, delivered to senior stakeholders with **DAX measures** and **data modelling** to eliminate process inefficiencies and improve forecast accuracy by **28%**.
- Maintained and developed **internal reports, databases, and data structures** using **Excel VBA** and **SQL**; led **ad-hoc analysis** on performance variance and planned forecast improvements across **12+ operational teams**, providing analytical support for WFM, planning, and operations administration with **100% accuracy on system information updates**.
- Conducted **data analysis and reporting** within banking operations environments; analyzed glide path, early-life, and staffing performance data; presented insights to operational and planning teams with attention to detail and commercial awareness, steering team direction and prioritization of **8+ concurrent improvement initiatives**.
- Engineered **Azure** and **cloud-based data pipelines** for ETL and scheduled reporting; developed **Tableau interactive dashboards** and **Power BI reporting models** for business stakeholders; managed collation of effectiveness measures across planning and service delivery with **strong analytical and data mining skills** demonstrated across **40+ ad-hoc analyses** annually.
- Applied **Microsoft Excel and PowerPoint** expertise to create bespoke data presentations and performance commentary; delivered **presentations fit for purpose and audience** (C-level, operational, planning teams); managed tight deadlines and high-pressure analytics delivery with **zero missed SLA reporting windows** across **24/7 banking operations**.

SKILLS

Data & Reporting Tools – Power BI, Tableau, Excel (VBA), Business Objects, Azure, DAX, Power Query.

Database & Query Languages – SQL, MySQL, PostgreSQL, Oracle, MS SQL query building, data management, schema design.

Analytics & Data Science – Data analysis, data mining, statistical analysis, regression, hypothesis testing, A/B testing, exploratory data analysis.

Programming & Automation – Python, R, RStudio, pandas, NumPy, scikit-learn, VBA scripting.

Enterprise Systems & Integration – ERP systems, REST APIs, system integration, change-control management, UAT coordination, data warehousing.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Git, Jenkins CI/CD.

Core Competencies – KPI development, operational insight, forecasting, process efficiency, attention to detail, commercial awareness, customer focus, presentation design, work under pressure.

EDUCATION AND TRAINING

PROJECTS

Multi-Channel Operational Performance & Workforce Planning Dashboard (HCL Technologies)

- Architected end-to-end **Power BI reporting platform** consolidating **call queue performance, staffing adherence, shrinkage analysis, early-life, and glide path metrics** across **8 banking client call centres**; integrated **SQL / MySQL data pipelines** with **Azure cloud infrastructure** to deliver **real-time KPI dashboards** via **DAX measures** and dynamic **data modelling** for senior stakeholders.
- Engineered **complex reporting models** combining agent-level KPIs (AHT, resolve rate, transfer rate, NPS, quality measures) with operational forecasting data; implemented **VBA automation** in **Excel** for bespoke client-specific metric definitions, reducing manual report preparation by **62%** and enabling **same-day ad-hoc analysis** on performance variance.
- Developed **analytical data structures** and **database schemas** supporting WFM, best-practice, and operations administration teams; conducted **data mining** across **18 months of historical performance** to uncover process inefficiencies; delivered **presentation-ready insights** with supporting commentary that improved forecast accuracy by **28%** and identified **€340K in operational savings**.
- Managed collation of effectiveness measures and **maintained internal reports and databases** to ensure fitness-for-purpose across changing client requirements; provided **Excel and PowerPoint presentations** tailored to audience (C-level, operational, planning); demonstrated **attention to detail** with **zero reporting errors** across **52 weekly stakeholder delivery cycles** under tight **high-pressure deadline environments**.

SWIFT Payments Operations Monitoring & Regulatory Compliance Dashboard (HCL Technologies)

- Supported production monitoring and incident triage for **SWIFT messaging** / payments-operations dashboard serving tier-1 banking client; designed **SQL queries** for real-time transaction-flow visibility and operational alerting on **MT/MX message formats**, reducing P1 incident response time by **43%**.
- Delivered analytical support on **SEPA / instant payments / cross-border payments** processing flows; applied domain expertise in **ISO 20022 message structure**, reconciliation workflows, and **tokenization concepts** to identify payment-process bottlenecks; provided ad-hoc analysis that improved payment settlement SLA compliance to **99.8%**.
- Collaborated with banking-domain business analysts and operations teams on **requirements gathering, UAT coordination, and post-implementation triage**; demonstrated commercial awareness of **GDPR / regulatory compliance** and financial-services audit-trail requirements in all reporting and system documentation.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
