PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Maintained portfolio of **ABS, RMBS, and CMBS transactions** across **40+ structured finance deals** at HCL Technologies, executing daily cash movement reporting to Treasury, invoice collection reconciliations, and **Interest Payment Date (IPD) reconciliations** with **99.8% accuracy** using **PostgreSQL ledger systems** and **Excel-based cash flow modeling**.
- Managed **accurate transaction setup and maintenance** for **structured finance portfolios**, interpreting complex **transaction documents** to decipher cash flow requirements, legal obligations, and deal-specific provisions; coordinated with operations teams on implementation of **15+ new transactions** annually with zero post-go-live breaks.
- Instructed and reconciled **external payments** for structured finance deals including **servicer data collection, investor report validation, and loan collection workflows**, maintaining **balance and transaction ledgers** with **daily cash position accuracy** across multi-currency accounts using **Oracle and MySQL** databases.
- Acted as focal point for allocated client relationships across **ABS/RMBS/CMBS portfolios**, resolving **transactional and deal-related issues** through cross-functional collaboration with banking operations teams, business analysts, and external custodians; reduced issue resolution time by **35%** through standardized escalation workflows.
- Developed **Power BI dashboards** for **cash management reporting**, automating **daily Treasury cash position reports** and **investor report validation metrics** using **DAX measures** and **data modeling**, enabling real-time visibility into **portfolio cash flows across 50+ deals** and reducing manual reporting time by **40%**.
- Executed **change-control management** for structured finance transaction configuration updates and **deal lifecycle management**, coordinating **UAT and post-implementation support** across interconnected banking systems; documented transaction setup procedures and regulatory requirements in comprehensive knowledge base supporting team scaling by **3 new hires**.

SKILLS

Structured Finance & Capital Markets – ABS transactions, RMBS transactions, CMBS transactions, trustee services, agency services, collateral administration, loan servicing, cash management, account bank operations.

Transaction & Deal Management – transaction setup and maintenance, transaction document interpretation, deal-specific cash flow requirements, invoice collection, servicer data collection, interest payment reconciliations, loan collection workflows.

Cash Management & Reporting – daily cash position reporting, ledger maintenance, balance reconciliation, multi-currency cash flows, Treasury reporting, investor report validation, payment instruction processing.

Data & Business Intelligence – Power BI dashboards, DAX measures, data modeling, SQL-based reporting (PostgreSQL, MySQL, Oracle), Excel cash flow modeling, stakeholder reporting.

Relationship & Client Management – cross-functional collaboration, operations liaison, client focal point responsibilities, regulatory and compliance coordination, UAT support, post-implementation triage.

Technical & Process Management – change-control management, issue resolution and troubleshooting, process documentation, knowledge base development, team coordination, Git version control.

Banking & Regulatory – GDPR compliance, audit trail maintenance, regulatory requirements, deal-specific legal obligations, banking system integrations, business continuity awareness.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Structured Finance Portfolio Dashboard & Automated Cash Reconciliation Platform (HCL Technologies)

- Architected and deployed **enterprise Power BI dashboard** consolidating **real-time cash position tracking** across **60+ ABS, RMBS, and CMBS transactions**, integrating **daily cash movement data** from **Oracle and PostgreSQL ledger systems** using **Power Query ETL pipelines** and **DAX measures** for automated **Interest Payment Date (IPD) reconciliation metrics**.
- Engineered **automated servicer data collection and validation workflows** using **Python scripts** and **SQL stored procedures**, reducing **manual data entry by 60%** and accelerating **investor report generation** from **3 days to 4 hours** through **scheduled batch processing** and **anomaly detection logic**.
- Implemented **multi-level balance reconciliation automation** using **SQL-based ledger validation** and **Power BI data quality checks**, achieving **99.8% transaction accuracy** across **monthly cash flows exceeding €50M** and flagging **discrepancies in <2 minutes** versus **8-hour manual process**.
- Developed **change-control tracking system** within **Confluence and Jira** to manage **deal configuration updates**, **UAT coordination**, and **post-go-live support** for **15+ new structured finance transactions annually**, reducing implementation cycle time by **25%** and ensuring **zero rework issues**.
- Collaborated with Treasury, Operations, and external custodians to document **transaction-specific cash flow requirements**, **legal and regulatory obligations**, and **deal-specific ledger logic** in structured knowledge base, enabling **3 new analysts to ramp in <4 weeks** and supporting **portfolio growth by 40%**.

Structured Finance Reporting & Invoice Collection Automation Suite (HCL Technologies)

- Built end-to-end **invoice collection and cash reconciliation workflows** for **ABS and RMBS portfolios**, automating **invoice tracking, validation, and payment instruction processing** using **Python ETL scripts** and **SQL-based cash flow matching logic**, reducing **collection cycle time by 35%**.
- Created **stakeholder-facing Power BI reports** on **loan collection status, servicer performance, and daily cash positions**, integrating **multi-source data feeds** from **operational systems** and enabling **real-time visibility** for **5+ client relationship managers** and **Treasury teams**.
- Resolved **complex transactional issues** by interpreting **transaction documents** and reconciling discrepancies between **deal-specific legal requirements** and **ledger postings**, reducing **issue resolution time by 40%** and preventing **compliance gaps**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
