PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Supported Project Engineers and Project Managers in delivery of **WasteWater Treatment Plants and Fresh Water Treatment Plants** projects through design and construction phases, coordinating cross-functional engineering teams and liaising with clients and client representatives to develop understanding of **contract requirements and client specifications**.
- Assisted in **design activities, equipment selection and procurement processes** while applying company procedures related to contract execution; monitored **project progress against budgets and timelines** using **MS Project** and Excel-based tracking, delivering weekly 3-week look-ahead reports to clients with **programme progress visibility**.
- Supported **Health & Safety and Environmental Management** across construction phase through **H&S; audits, incident investigation**, and compliance verification of construction-phase plans; coordinated site activities to **set persons to work to Veolia Minimum Requirements (VMR) standards** and ensured plant equipment fitness-for-purpose through systematic inspection protocols.
- Managed **Site Coordination and Logistics** activities including conflict avoidance scheduling and equipment deployment; assisted in **quality and subcontractor management** through review of third-party methodologies (RAMS/SSOW), performance monitoring, quality log maintenance, and timely resolution of subcontractor defects.
- Demonstrated **commercial awareness and leadership** by assisting in resolution of disputes and claims, maintaining familiarity with project documentation, and ensuring **PSCS (Project Supervisor Construction Stage) duties** fulfillment on site; optimized workflows to reduce project programme through process analysis and coordination improvements achieving **8% schedule acceleration**.
- Applied strong **IT skills including Microsoft Word, Excel, PowerPoint and MS Project** for project documentation, reporting, and schedule management; demonstrated excellent **communication and written skills** through client updates, technical specifications, and cross-disciplinary collaboration across engineering teams.

SKILLS

Engineering & Project Management – WasteWater Treatment Plants, Fresh Water Treatment Plants, project design support, equipment selection, procurement coordination, contract execution, programme management.

Health, Safety & Compliance – H&S; audits, incident investigation, construction-phase compliance planning, Veolia Minimum Requirements (VMR), PSCS (Project Supervisor Construction Stage) duties, environmental management.

Site & Subcontractor Management – site coordination, logistics planning, RAMS/SSOW methodology review, subcontractor performance management, quality assurance, defect resolution, equipment inspection.

Commercial & Leadership – dispute and claims resolution, commercial awareness, workflow optimization, cross-functional team collaboration, client liaison.

Microsoft Office & Project Tools – MS Project, Excel, Word, PowerPoint, budget tracking, timeline management, reporting.

Engineering Disciplines – mechanical engineering fundamentals, civil engineering coordination, multi-disciplined team collaboration, design phase support.

Professional Development – strong organizational and time management skills, written and verbal communication, cross-cultural teamwork, international project delivery.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Integrated WasteWater Treatment Plant Design & Delivery Programme (HCL Technologies / Veolia EICA Division)

- Led end-to-end support for a **€8.5M multi-phase wastewater treatment facility project** spanning design, procurement, and construction coordination across 18-month delivery cycle; coordinated **design activities, equipment selection, and procurement processes** with engineering teams, client representatives, and 12+ subcontractors.
- Managed **Site Coordination and Logistics** activities for 450-person construction workforce, ensuring zero safety incidents through systematic **H&S; audits, incident investigation protocols**, and compliance verification of **construction-phase plans**; implemented **Veolia Minimum Requirements (VMR) standards** achieving 100% on-site compliance audit pass rate.
- Executed **quality and subcontractor management** responsibilities including formal review of **RAMS/SSOW methodologies** from 8 major subcontractors, performance log maintenance, and defect tracking; resolved 94% of subcontractor quality issues within SLA, reducing rework costs by **€240K**.
- Developed comprehensive project reporting framework using **MS Project, Excel, and PowerPoint** to deliver weekly **3-week look-ahead programme visibility** to client stakeholders; tracked **project progress against budgets and timelines**, identifying schedule risks 3 weeks early and implementing optimization measures that delivered **8% programme acceleration** (45 days ahead of baseline).
- Supported **PSCS (Project Supervisor Construction Stage) duties** including site supervision documentation, compliance sign-offs, and incident reporting; demonstrated **commercial awareness** by assisting in resolution of 3 major claims totaling €1.2M through contract interpretation and structured dispute resolution.

Fresh Water Treatment Plant Equipment Procurement & Logistics Coordination (HCL Technologies / Veolia EICA)

- Coordinated **equipment selection and procurement processes** for a **€2.1M fresh water treatment facility**, supporting Project Engineers in sourcing 40+ critical equipment items (filtration systems, pumps, control instrumentation) from international suppliers.
- Managed **Site Coordination and Logistics** to avoid conflict and ensure plant equipment **fitness-for-purpose and systematic inspection**; implemented receiving inspection protocols achieving 98% first-pass compliance before deployment.
- Applied **contract execution procedures** and developed procurement documentation using **Word, Excel, and MS Project**; collaborated across multi-disciplined teams to reduce procurement cycle time by **3 weeks** through improved specification clarity and vendor communication.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)

- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
