PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed a portfolio of **5 concurrent data center projects** for enterprise clients, ensuring delivery within scope and budget.
- Drove revenue growth by maintaining **high-quality project execution** across all assigned data center initiatives, resulting in repeat business.
- Achieved and maintained targeted **profit margins** across a portfolio of projects, preventing financial write-downs or margin erosion.
- Directed project teams in identifying **Risk Triggering Factors (RTFs)** and implementing effective mitigation strategies to minimize contractual claims.
- Supervised and mentored **Project Managers** overseeing multiple large-scale data center programs, ensuring efficient team operation.
- Collaborated with engineering and construction teams to oversee the full project lifecycle, from concept and design through to commissioning of mission-critical facilities.
- Containerized core Java Spring Boot services with **Docker** and deployed to **AWS EC2 instances**, improving deployment consistency and reducing manual configuration overhead.

SKILLS

Project Management – Project Lifecycle Management, Risk Management, Stakeholder Engagement, Client Management, Financial Management, Team Leadership, Procurement

Data Centers – Colocation Facilities, Mission-Critical Projects, Design Development, Construction Management, Commissioning, Infrastructure

Software Engineering – Java, Spring Boot, REST APIs, Microservices, Hibernate, JPA, JUnit, Docker, AWS, EC2, S3, Lambda

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, ETL, SQL, R, pandas, NumPy

Operations & Support – Production Support, Incident Response, SLA Management, Splunk, Dynatrace, CloudWatch, Linux, Jenkins, Git

PROJECTS

Enterprise Java Application Modernization

- Refactored legacy Java modules into modular Spring Boot microservices, improving maintainability and enabling independent deployments for a core enterprise system.
- Implemented RESTful APIs using Spring Boot to facilitate seamless data exchange between the modernized services and existing backend systems, enhancing integration capabilities.
- Managed the migration of persistence layers from legacy Oracle schemas to **PostgreSQL**, ensuring data integrity and optimizing query performance using **JPA** and Hibernate.

Production Monitoring Dashboard Enhancement

- Developed interactive **Power BI** dashboards to visualize key operational metrics from a financial services client's transaction processing system, providing near real-time insights.
- Engineered **Python** scripts to automate data extraction and transformation from multiple log sources (Splunk, Dynatrace) for ingestion into the Power BI data model, reducing manual reporting effort by **~40%**.
- Collaborated with operations teams to define critical performance indicators and alert thresholds displayed on the dashboard, improving incident detection and response times.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
