PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Gathered, analysed, and documented business objectives, specifications, and requirements for reporting enhancements on medium-sized projects, ensuring alignment with stakeholder needs.
- Provided technical support to business users on the Reporting application suite, resolving issues related to data accuracy and report generation.
- Facilitated workshops and training sessions for business users on new reporting features, creating comprehensive user manuals and documentation.
- Assisted developers by analysing existing reporting systems, identifying key areas for enhancement and proposing technical solutions.
- Managed changes within the application lifecycle, coordinating User Acceptance Testing (UAT) and providing post-go-live support for integrated systems.
- Developed Python scripts to automate data extraction and transformation for scheduled reporting, improving data preparation efficiency by **30%**.
- Containerised reporting services using **Docker** for consistent deployment across development and production environments.

SKILLS

Business Analysis – Requirements Gathering, Business Objectives, Specifications, User Manuals, UAT, Process Mapping, SDLC, Quality Validation

Reporting & BI Tools – Power BI, Tableau, DAX, Power Query, SQL

Programming & Scripting – Python, Java, Spring Boot, SQL (PostgreSQL, MySQL, Oracle)

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Financial Services Concepts – Fund Accounting Reporting, Transaction Monitoring, Reconciliation Workflows, Regulatory Awareness

PROJECTS

Financial Reporting Automation Suite

- Developed a suite of Python scripts to automate the generation of daily and weekly financial reports, reducing manual effort by **40%**.
- Integrated data from multiple PostgreSQL databases using SQL queries and pandas for transformation and aggregation into standardized report formats.
- Built interactive dashboards in **Power BI** to visualize key financial metrics and trends, enabling faster decision-making for stakeholders.

Client Onboarding Workflow Enhancements

- Collaborated with client-facing teams to gather requirements for improving the client onboarding process for the reporting platform.
- Documented proposed workflow changes and conducted UAT with internal business users to validate the enhanced process.
- Developed **Java Spring Boot** REST APIs to integrate the onboarding system with downstream client management tools.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
