PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Architected and developed **ReactJS**-based data applications, focusing on high-performance metrics and insights with minimal latency for internal business partners.
- Designed and implemented **RESTful service layer components** in **Java Spring Boot**, supporting data exchange between the feature store and consumer applications.
- Engineered **Python ETL pipelines** to ingest and transform data for analytics platforms, processing approximately **1.5 TB** of data weekly.
- Collaborated with internal stakeholders to understand business strategies and solution needs, championing platform enhancements for improved user experience.
- Developed rich user interfaces using **HTML5** and **CSS3**, ensuring exceptional user experience and accessibility standards.
- Containerized applications using **Docker** and deployed them to **AWS EC2** instances, managing CI/CD pipelines with **Jenkins** for consistent release schedules.
- Wrote and maintained **SQL queries** against **PostgreSQL** databases for data validation and ad-hoc reporting, supporting data-driven decision-making.

SKILLS

Frontend – ReactJS, HTML5, CSS3, JavaScript

Backend – Java, Spring Boot, Python, NodeJS, REST APIs

Databases – PostgreSQL, SQL

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Data & AI – Data Structures, Algorithms, Generative AI Concepts, Large Language Models, Prompt Engineering

Methodologies – Agile, Scrum, Test Driven Development

PROJECTS

Interactive Data Dashboard for Enterprise Insights

- Developed a **ReactJS** frontend application to display key business metrics derived from **PostgreSQL** data sources.
- Implemented **REST APIs** using **Python Flask** to serve aggregated data for the dashboard, handling approximately **500 requests per second** during peak hours.
- Designed and built interactive visualizations and charts, enabling business stakeholders to explore trends and identify actionable insights.

Data Ingestion and Processing Pipeline

- Created automated **Python ETL pipelines** to extract data from various sources, transforming it for analytical use.
- Managed data flow and processing using **AWS Lambda** and **S3**, ensuring data integrity and availability for downstream applications.
- Integrated error handling and logging mechanisms, reducing data processing failures by an estimated **20%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
