PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided on-site and remote technical support to end-users, resolving hardware and software issues for a 200+ user base at various company sites.
- Configured and installed new hardware, including **laptops**, **workstations**, and mobile devices (iOS/Android), ensuring seamless integration into the company network.
- Managed a queue of IT support tickets via a **helpdesk support** system, delivering second-level support via phone, email, and remote desktop tools.
- Assisted in the setup and maintenance of user accounts and permissions within the Active Directory environment.
- Troubleshoot and resolved issues related to **printers**, network connectivity, and common **M365** applications.
- Escalated complex technical challenges to senior IT teams, documenting troubleshooting steps and resolutions for knowledge base contribution.
- Maintained inventory of IT assets and provided basic user training on new hardware and software deployments.

SKILLS

Helpdesk & Support – helpdesk support, Desktop Support, End-User Support, Ticketing Systems, Escalation Management

Hardware & Devices – workstations, laptops, Printers, Mobile Devices, iOS, Android

Operating Systems – Windows, macOS, Linux

Software & Applications – M365, Microsoft Office Suite, Active Directory

Tools & Methodologies – Remote Desktop, IT Asset Management, Change Management

PROJECTS

Enterprise Desktop Support Enhancement (HCL Technologies)

- Streamlined the deployment process for new **workstations** and **laptops** across multiple departments, reducing setup time by an average of 15%.
- Developed a standardized troubleshooting guide for common hardware failures, improving first-call resolution rates for the Level 1 support team by approximately 10%.
- Collaborated with the infrastructure team to automate user account creation and permission assignments using **Python** scripts, decreasing manual effort by 20 hours per week.

Mobile Device Management Rollout (HCL Technologies)

- Configured and deployed mobile devices (**iOS** and **Android**) for field engineers, integrating them with the company's secure network and email infrastructure.
- Provided direct desktide support and remote assistance to users during the initial rollout phase, addressing configuration and access issues.
- Created user documentation and conducted brief training sessions on mobile device security policies and core application usage.
