PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the ecological input and fieldwork coordination for **infrastructure projects** within the energy and transport sectors, ensuring logical progression and adherence to project timelines.
- Developed and delivered **high-quality ecological reports**, including Preliminary Ecological Appraisals (PEA) and biodiversity chapters for Environmental Impact Assessment Reports (EIAR), to meet best practice standards.
- Organised and executed **terrestrial and freshwater ecological field surveys**, documenting habitat types, species presence, and potential impacts with strong numerical and observational skills.
- Collaborated with **Senior Consultants and Project Managers** to support the delivery of key environmental projects, providing detailed ecological data and insights.
- Prepared concise and logical reports on ecological findings, translating complex data into understandable summaries for project stakeholders and regulatory bodies.
- Managed project data using **GIS software**, contributing to spatial analysis and visualisation of ecological survey results to inform project planning and mitigation strategies.
- Coordinated with **external stakeholders**, including regulatory agencies and local authorities, to facilitate project approvals and address ecological concerns.

SKILLS

Ecology – Terrestrial Ecology, Freshwater Ecology, Habitats, Botany, Ornithology, Mammals, Bats, Field Surveys, Ecological Impact Assessment (EclIA), Preliminary Ecological Appraisal (PEA), Environmental Impact Assessment Report (EIAR), Biodiversity

GIS – QGIS, MapInfo, ArcGIS, Spatial Analysis, Data Management

Reporting & Analysis – Technical Reporting, Numerical Analysis, Logical Thinking, Concise Reporting, Data Visualisation, Stakeholder Engagement

Project Management Support – Ecological Input Management, Environmental Projects, Team Collaboration, Independent Work

General Skills – Communication Skills, Organisational Skills, Driver's Licence

PROJECTS

Ecological Survey and Reporting for Infrastructure Development

- Conducted comprehensive field surveys across multiple sites, documenting **terrestrial habitats** and identifying key flora and fauna, including avian species and terrestrial mammals.
- Prepared detailed **Ecological Impact Assessments (EclIA)** and Preliminary Ecological Appraisals (PEA) based on survey findings, quantifying potential impacts on biodiversity.
- Managed and organised survey data using **QGIS** to create habitat maps and support the reporting process for infrastructure project environmental statements.

Freshwater Ecology Assessment and Stakeholder Consultation

- Undertook **freshwater ecological surveys**, assessing water quality parameters and aquatic habitat condition in support of water sector infrastructure projects.
- Generated comprehensive reports detailing findings and recommending mitigation measures for sensitive aquatic environments, aligning with regulatory requirements.
- Engaged with **local environmental stakeholders** to discuss survey methodologies and findings, ensuring clear communication and addressing potential concerns.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
