## PROFESSIONAL EXPERIENCE

---

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Supported the development lifecycle of software projects by acting as a bridge between technical teams and business stakeholders, gathering and documenting requirements.
- Assisted in the integration of AI features by defining use cases and data requirements for automated workflows, translating business needs into technical specifications.
- Conducted gap analysis and process mapping to identify opportunities for software optimization and efficiency improvements, presenting findings to non-technical audiences.
- Facilitated User Acceptance Testing (UAT) by creating test scripts and coordinating with business stakeholders to ensure alignment with original project intent.
- Maintained project documentation and backlogs within Agile/Scrum environments, actively participating in sprint planning, reviews, and retrospectives.
- Developed **Python scripts** to automate data extraction and reporting tasks, reducing manual effort by approximately **15%** for the operations team.
- Participated in **production incident response** for enterprise applications, analyzing logs in **Splunk** and documenting root causes to prevent recurrence.

## SKILLS

---

**Business Analysis** – Requirements Elicitation, Process Mapping, Gap Analysis, User Stories, Functional Specifications, UAT, Stakeholder Management, Agile Methodologies

**AI/ML Concepts** – AI Features, Machine Learning Models, Automated Workflows, Data Requirements, Success Metrics

**Programming & Scripting** – Python, Java, SQL

**Databases & Data Handling** – PostgreSQL, MySQL, Oracle, Data Warehousing, ETL

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

**Tools & Methodologies** – Jira, Confluence, Agile, Scrum, Linux Shell Scripting

## PROJECTS

---

### AI Feature Integration for Business Process Optimization

- Collaborated with business stakeholders to define use cases and data requirements for integrating AI-driven features into existing operational workflows.
- Mapped current business processes and conducted gap analysis, identifying opportunities for automation and efficiency gains through AI solutions.
- Documented functional specifications and user stories for AI feature development, ensuring clear communication between business analysts and technical teams.

### Software Project Documentation and UAT Support

- Assisted in maintaining project documentation and backlogs within an **Agile/Scrum** framework, ensuring traceability of requirements.
- Developed comprehensive test scripts and facilitated User Acceptance Testing (UAT), coordinating feedback from business users to validate software functionality.
- Supported the translation of business requirements into actionable technical tasks for the development team, bridging communication gaps.

## EDUCATION

---

### M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

### B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
