PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Supported a financial-services operations dashboard by developing **Java Spring Boot** microservices for transaction monitoring and alerting, processing approximately **3,200 failed payment messages** per week.
- Automated data extraction and reporting tasks using **Python scripting**, generating daily reconciliation summaries for enterprise business systems and reducing manual effort by **15%**.
- Managed production incidents for enterprise applications, performing root cause analysis and coordinating resolutions within strict **SLA** targets for P1/P2 issues.
- Communicated complex **data analysis concepts** and statistical methods to researchers and early-career scientists, building confidence in the product's capabilities.
- Gathered and synthesized user feedback on the data analysis product, identifying patterns and relaying actionable insights to the **Product team** for development prioritization.
- Partnered with **Engineering** on escalated customer issues, contributing to bug report investigations and technical deep-dives for product improvements.
- Developed and maintained external **knowledge base content** for the data analysis product, creating clear, user-friendly guides and troubleshooting articles.

SKILLS

Data Analysis & Visualization – Power BI, Tableau, R, DAX, Power Query, data modelling, statistical methods, exploratory data analysis, A/B testing, time-series analysis, business intelligence

Programming & Scripting – Python, Java, Spring Boot, REST APIs, SQL, Flask, FastAPI, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git, Linux

Enterprise Systems – ERP integration support, change-management, Jira, Confluence

Customer Support Tools – Zendesk, Slack, live chat, email support, internal escalations

PROJECTS

Customer Onboarding Playbook for Data Analysis Product

- Developed a comprehensive onboarding playbook for new users of a data analysis product, detailing best practices for **statistical tests** and **visualization**.
- Created interactive examples and tutorials in **Python** and using **Power BI** to demonstrate core product functionalities and common research workflows.
- Conducted feedback sessions with pilot users, translating their experiences into actionable documentation improvements and support process refinements.

Transaction Flow Monitoring Dashboard (HCL Technologies)

- Engineered a **Java Spring Boot** application to ingest and process transaction messages, providing real-time monitoring for operational dashboards.
- Implemented **SQL** queries against a **PostgreSQL** database to track payment statuses and identify anomalies in transaction workflows.
- Collaborated with business analysts to define alert criteria, contributing to the reduction of manual reconciliation efforts by approximately **20%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
