PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **software validation** processes and documentation, ensuring compliance with global policies, SOPs, and WIs for equipment and software qualification.
- Reviewed and approved qualification deliverables (e.g., QP, PRA/EHA, EFS, EQP, SCS, EQR) for new and updated software systems, verifying adherence to intended use and regulatory requirements.
- Provided guidance on Non-Device Software Lifecycle processes, including spreadsheets, data reporting, and AI applications, to project teams across various departments.
- Managed and documented discrepancies and deviations encountered during **software qualification** projects, collaborating with project teams to ensure adequate resolution and control.
- Mentored and trained employees across different functions on **software validation** best practices, enhancing overall competency and driving a culture of 'Right First Time'.
- Participated in **validation project teams**, contributing to schedule determination and ensuring adherence by coordinating with cross-functional teams and departments.
- Containerized Java Spring Boot applications using **Docker** and deployed to **AWS EC2** instances, managing CI/CD pipelines with **Jenkins** for automated testing and deployment.

SKILLS

Quality Engineering – Software Validation, Equipment Qualification, Non-Device Software Lifecycle, Part 11 Compliance, Data Integrity, Change Control, Regulatory Compliance

Programming Languages – Java, Python, C#, C++, VB.Net, SQL

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes

Databases – PostgreSQL, MySQL, Oracle

Development Tools & Methodologies – Jenkins, Git, Jira, Confluence, Agile, Scrum, Code Reviews

Analytics & BI – Power BI, Power Apps, Power Automate, Tableau, DAX, Data Modelling

PROJECTS

Enterprise Software Validation Framework

- Designed and implemented a standardized **software validation** framework for enterprise applications, incorporating templates for qualification plans, protocols, and reports.
- Developed Python scripts to automate the generation of routine validation documentation and compliance reports, reducing manual effort by **40%** for standard projects.
- Collaborated with cross-functional teams to ensure all project deliverables met strict **regulatory and quality system** requirements before final sign-off.

Automated Data Reporting Service

- Built a **Java Spring Boot** service to automate the generation and distribution of daily operational reports, integrating with PostgreSQL and delivering insights via a REST API.
- Implemented data extraction and transformation logic using **Python and pandas** to prepare datasets for reporting, handling approximately **5,000 records** per daily run.
- Containerized the reporting service with **Docker** and deployed it to an **AWS Lambda** environment, ensuring scalable and cost-effective execution.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
