PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided **first-line IT support** for hardware, software, and network issues across **350+ retail sites** and corporate offices, resolving an average of **18 tickets daily**.
- Monitored **production systems**, including the main betting platform, providing timely and professional communication to business units during critical outages and system events.
- Troubleshoot and resolved a variety of end-user issues, including **EPOS/Screens**, peripheral devices, and on-site/remote user support, ensuring adherence to SLAs.
- Created and maintained **knowledge base articles** and problem resolution documentation, contributing to a **15% reduction** in repeat ticket escalations.
- Managed user lifecycle requests, including **new starter setup** and leaver processes within defined SLAs, processing approximately **25 requests per week**.
- Collaborated with third-party service providers and internal teams (Development, Network, Systems) to ensure end-to-end support and efficient issue escalation.
- Supported on-site and remote users, including **Office 365 applications**, Active Directory, and in-house VOIP phone systems, ensuring smooth daily operations.

SKILLS

IT Support – Service Desk, First Line Support, Incident Management, Problem Management, Ticketing Systems, Knowledge Base, SLA Management, User Support, Retail IT Support, EPOS Support

Operating Systems – Microsoft Windows (all versions), Active Directory, Group Policy

Cloud & Applications – Office 365, Google Workspace, Citrix

Networking – DNS, DHCP, Network Patching, Cabling, Cisco Routers, Switches, Network Hardware

Telephony – Avaya Phone Systems, VOIP Phones

Tools – ManageEngine (Bonus), SCCM (Desirable), Jira Service Desk, Confluence

PROJECTS

Retail IT Support Enhancement Program

- Streamlined the **support process for EPOS systems** across 350+ retail locations, reducing average resolution time by **22%** through improved diagnostic scripts.
- Developed a comprehensive **knowledge base for common retail IT issues**, enabling first-line analysts to resolve **70%** of hardware and software problems without escalation.
- Managed the deployment and configuration of new hardware and software updates for retail staff, ensuring minimal disruption to operations.

User Onboarding and Offboarding Automation

- Automated **new starter and leaver request** processing using scripting and integration with **Active Directory**, decreasing turnaround time by **30%**.
- Implemented standardized configuration for user accounts and access rights across **Office 365** and internal betting platform applications.
- Created detailed documentation and training materials for the IT support team on new user management procedures.
