PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Resolved production issues for enterprise applications, performing incident response and SLA management for P1/P2 incidents using **Splunk** and **Dynatrace**.
- Developed Python scripts to automate data extraction and transformation, building ETL pipelines that processed approximately **1.5 TB** of data weekly.
- Designed and implemented Java Spring Boot REST APIs for microservices, handling cross-service communication and data persistence with **PostgreSQL**.
- Provided direct technical support to enterprise customers, diagnosing and resolving complex issues for core networking and virtualization products via phone and Zoom.
- Reproduced customer-reported software defects in lab environments, meticulously documenting steps and root causes to facilitate engineering fixes.
- Authored new **knowledgebase articles** based on resolved customer issues, contributing to a shared repository that improved team-wide problem-solving efficiency by an estimated **15%**.
- Containerized Java applications using **Docker** and deployed them to **AWS EC2** instances, managing runtime environments and ensuring application availability.

SKILLS

Networking – Core Networking, Virtualization, L3 Protocols, L2 Protocols, TCP, UDP, ARP, DHCP, ICMP, IPv4, IPv6, VLAN Concepts, VLAN Tagging, NSX, Firewall

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes

Programming Languages – Java, Spring Boot, Python, SQL

Support & Operations – Technical Support, Incident Response, SLA Management, Troubleshooting, Customer Service, Knowledgebase Creation, Escalation Management

Databases – PostgreSQL, MySQL, Oracle

Tools & Methodologies – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Agile/Scrum

PROJECTS

Enterprise Application Monitoring and Alerting System

- Developed a **Java Spring Boot** application to aggregate operational metrics from multiple enterprise systems, focusing on transaction flow monitoring.
- Integrated **Splunk** and **Dynatrace** APIs to ingest real-time log data and performance indicators, enabling proactive alerting for potential issues.
- Designed a custom dashboard interface to visualize key performance metrics and transaction statuses, providing operational teams with actionable insights.

Automated Network Configuration Validation Tool

- Created a **Python** utility to automate the validation of network device configurations against defined security policies and compliance standards.
- Implemented logic to parse configuration files from various network hardware vendors and compare them against a central policy repository stored in **PostgreSQL**.
- Generated detailed reports on configuration drift and compliance violations, reducing manual review time for network audits by approximately **40%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
