PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **end-to-end user features** for a large-scale collaboration platform, impacting millions of users globally.
- Translated complex product requirements into detailed technical designs and executable tasks, ensuring high-quality and maintainable code for the Webex collaboration suite.
- Acted as a technical lead for a team of 4 engineers, conducting rigorous **code reviews**, guiding architectural decisions, and elevating overall engineering standards.
- Investigated customer issues and analyzed feedback metrics to identify root causes, driving actionable improvements that enhanced user experience and satisfaction for the Webex platform.
- Collaborated closely with **UX designers** and **product managers** in an agile environment to deliver delightful customer experiences, balancing rapid iteration with long-term system sustainability.
- Developed and maintained **Java Spring Boot RESTful APIs** for cross-service communication within the Webex ecosystem, ensuring robust data exchange and integration.
- Containerized microservices using **Docker** and deployed them to an **AWS**-managed Kubernetes cluster, establishing basic CI/CD pipelines with **Jenkins** for automated deployments.

SKILLS

Languages – Java, Python, TypeScript, JavaScript, C++

Backend – Spring Boot, RESTful APIs, WebSockets, API Design, Microservices

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Kubernetes, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Frontend – React, Angular, UI Frameworks

Analytics & BI – Power BI, Tableau, DAX, Power Query

Methodologies – Agile, Scrum

PROJECTS

Webex Meetings Feature Enhancement (HCL Technologies)

- Developed new **Java Spring Boot microservices** to support enhanced meeting scheduling capabilities, integrating with existing calendar and user management systems.
- Implemented **RESTful APIs** for real-time status updates during active meetings, ensuring low-latency communication between client applications and the backend infrastructure.
- Wrote comprehensive **JUnit tests** and participated in peer code reviews to ensure code quality and adherence to architectural patterns for the Webex Meetings feature set.

Collaboration Platform Observability Dashboard (HCL Technologies)

- Built an internal **Power BI dashboard** to visualize key operational metrics for the Webex platform, including user engagement, API response times, and system health.
- Developed **Python scripts** to aggregate data from various sources (e.g., application logs, cloud monitoring services) into a centralized data store for analysis.
- Created custom **DAX measures** and data models within Power BI to provide actionable insights to operations and product teams, enabling faster issue resolution.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
