PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, designing and implementing **RESTful APIs** for cross-service communication, handling approximately **2,000 requests per minute** during peak hours.
- Implemented persistence layers using **Hibernate** and **JPA** with **PostgreSQL**, managing complex object-relational mappings and optimising database interactions for core application data.
- Authored **JUnit** and **Mockito** test suites for Java applications, achieving over **90% code coverage** for critical business logic modules and ensuring code quality through peer reviews.
- Translated complex product requirements into actionable technical tasks and implemented elegant, maintainable components within the existing Webex framework, collaborating with UX and product teams.
- Acted as a technical detective to troubleshoot and resolve complex customer issues reported via feedback and metrics, improving user experience and elevating CSAT scores.
- Containerised multiple Java applications using **Docker** and deployed them to an **AWS EKS** cluster, managing configurations and ensuring smooth rollouts.
- Designed and implemented unit, integration, and end-to-end tests, including contract testing and test automation within **CI pipelines**, ensuring high-quality software delivery.

SKILLS

Languages – Java, Python, C++, Swift, TypeScript, JavaScript

Backend Frameworks – Spring Boot, RESTful APIs, WebSockets, API Design, Hibernate, JPA

UI Frameworks – React, Angular, Qt, Cocoa

Cloud & DevOps – AWS, EKS, Docker, Jenkins, Git, CI/CD

Databases – PostgreSQL, MySQL, Oracle

Testing – Unit Testing, Integration Testing, End-to-End Testing, Contract Testing, Test Automation

Collaboration Tools – Jira, Confluence

PROJECTS

Webex Collaboration Feature Development (HCL Technologies)

- Designed and implemented new user-facing features for a collaboration platform using **Java Spring Boot**, integrating with existing backend services and APIs.
- Developed **RESTful APIs** to support real-time data exchange for collaboration features, ensuring low latency and high availability for end-users.
- Collaborated with product managers and designers to refine feature requirements and deliver iterative updates within an Agile development cycle.

Customer Feedback Integration Service (HCL Technologies)

- Built a **Python** microservice to ingest and process customer feedback data from multiple sources, including user reports and system metrics.
- Developed API endpoints using **FastAPI** to expose processed feedback data for analysis and troubleshooting by support and engineering teams.
- Implemented data validation and basic anomaly detection to identify critical issues impacting user experience, reducing manual triage time by approximately **30%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
