PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed and governed the end-to-end process for **SAP Material Master** data creation, resolving business-raised issues to ensure data integrity for ~500 new material codes per quarter.
- Generated and presented **Master Data Quality Reports** to stakeholders, maintaining an average data accuracy rate of **98.7%** across key material attributes.
- Collaborated with cross-functional teams including supply chain and operations to drive decision-making, ensuring adherence to **data standards** and achieving critical master data milestones.
- Designed and executed **User Acceptance Testing (UAT)** for new SAP module introductions and critical data change implementations, coordinating with business users for sign-off.
- Developed and delivered training materials for team members and end-users on **Master Data Management (MDM) processes** and the master data lifecycle, enhancing team proficiency by an estimated **20%**.
- Analyzed workflow data requests for compliance and completeness, managing data entry in key systems to support a large-scale ERP deployment.
- Containerized legacy data migration scripts using **Docker** and orchestrated their deployment to a **Linux** environment via **Jenkins** pipelines, ensuring repeatable and auditable data loads.

SKILLS

SAP – COMET, Material Master, SAP Master Data, SAP Deployment

Data Management – Master Data Governance, Data Quality, Data Standards, MDM Processes, Data Lifecycle, Data Entry, Data Analysis, Data Interpretation

ERP Systems – ERP Implementation, Business Systems Support

Reporting & Analytics – Data Quality Reports, Business Intelligence, Dashboards

Development & Operations – Python Scripting, SQL, REST APIs, Docker, Jenkins, Linux

Project Management – UAT, Stakeholder Management, Requirements Gathering, Change Management

PROJECTS

SAP Material Master Data Governance Framework

- Developed a comprehensive governance framework for **SAP Material Master** data, defining ownership, stewardship, and validation rules for over 1,000 material types.
- Implemented automated data quality checks using **Python scripting** and **SQL** queries against a staging database, reducing manual validation effort by approximately **40%**.
- Collaborated with business analysts to document data standards and train a pilot group of data stewards on new MDM processes and tools.

Automated ERP Data Integration & Validation

- Engineered **Python ETL pipelines** to extract, transform, and load data between legacy systems and the new ERP platform, processing approximately **15,000 records** daily.
- Designed and implemented validation rules and reconciliation workflows using **SQL** to ensure data accuracy and consistency across interconnected enterprise systems.
- Containerized data integration jobs with **Docker** for consistent deployment across development and production environments, managed via **Jenkins** CI/CD pipelines.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
