PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed **lab equipment validation projects** from software installation through business release, ensuring adherence to site procedures and GMP guidelines.
- Generated comprehensive **computer system validation documentation**, including Design Specifications, Configuration Specifications, Testing Plans, Security Plans, and Test Summary Reports.
- Reviewed software release notes to identify potential impacts on validation status and compliance requirements for laboratory instruments.
- Analyzed and challenged software functionalities to identify and document compliance gaps against **21 CFR Part 11**, ER/ES, and data integrity guidelines.
- Collaborated cross-functionally with laboratory operations, manufacturing, and IT teams to gather requirements and ensure successful system validation.
- Provided systems validation and compliance expertise for the implementation of newly purchased laboratory instruments, ensuring readiness for operational use.
- Containerized validation support tools using **Docker** for consistent deployment across different testing environments on **AWS EC2**.

SKILLS

Validation & Compliance – Computer System Validation (CSV), 21 CFR Part 11, GMP Guidelines, ER/ES, Data Integrity, IQ/OQ/PQ, Design Specification, Test Summary Report

Tools & Technologies – Jira, Confluence, Splunk, Dynatrace, Git, Jenkins, Docker, AWS (EC2, S3, Lambda, CloudWatch)

Programming & Scripting – Java, Spring Boot, Python, SQL

Databases – PostgreSQL, MySQL, Oracle

Methodologies – Agile, Scrum

Operating Systems – Linux

PROJECTS

Validation of a New Laboratory Information Management System (LIMS)

- Developed and executed validation protocols for a new **LIMS**, covering installation qualification (IQ), operational qualification (OQ), and performance qualification (PQ).
- Authored detailed Design and Configuration Specifications for the LIMS, aligning system setup with regulatory requirements and business needs.
- Collaborated with laboratory stakeholders to coordinate User Acceptance Testing (UAT) and ensure the system met end-user operational demands.

Automated Compliance Reporting for Enterprise Systems

- Engineered Python scripts to extract audit trail data from enterprise applications and generate compliance reports, reducing manual effort by approximately **40%**.
- Integrated reporting scripts with **Jenkins** for automated scheduling and execution, ensuring timely delivery of operational data.
- Stored generated reports in **AWS S3** for archival and easy retrieval, maintaining a clear audit trail for regulatory review.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
