PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for inter-service communication, processing approximately **1,500 requests per minute** during peak hours.
- Implemented database persistence logic using **Hibernate** and **JPA**, managing complex object-relational mappings for enterprise data entities.
- Authored comprehensive unit tests using **JUnit** and **Mockito**, achieving over **90% code coverage** for newly developed Java modules.
- Collaborated with cross-functional teams including scientists and engineers to understand requirements and implement system improvements for manufacturing environments.
- Supported troubleshooting and root cause analysis for software-related issues within manufacturing environments, ensuring data integrity and high availability.
- Monitored system performance and implemented proactive measures to prevent downtime or data discrepancies, contributing to enhanced system reliability.
- Containerized applications using **Docker** and managed deployments on **AWS EC2** instances, improving deployment consistency and reducing setup time.

SKILLS

Programming Languages – Python, Java, SQL

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Linux, R/RStudio, Power BI, Tableau

Methodologies – Agile, Scrum, GMP, CSV

PROJECTS

Manufacturing Execution System (MES) Data Analytics Platform

- Developed Python scripts to ingest and transform manufacturing data from disparate sources, creating a unified dataset for analysis.
- Built **Power BI** dashboards to visualize key performance indicators and operational metrics for the manufacturing and supply chain teams, enabling faster decision-making.
- Collaborated with site engineers to define data requirements and validate the accuracy of the analytics platform, ensuring compliance with pharmaceutical regulations.

Enterprise Resource Planning (ERP) System Integration Automation

- Automated data reconciliation processes between the ERP system and operational platforms using **Python** and **SQL**, reducing manual effort by approximately **30%**.
- Designed and implemented REST APIs using **Java Spring Boot** to facilitate seamless data exchange between interconnected enterprise systems.
- Supported change control management for system configuration updates and coordinated User Acceptance Testing (UAT) for integration enhancements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
