PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided phone, email, and chat support for an enterprise eCommerce platform, resolving an average of **15 customer inquiries daily** within defined SLAs.
- Developed and documented standard operating procedures for common eCommerce and SaaS issues, contributing to a **10% increase in first-contact resolution** across the support team.
- Collaborated with **product developers** and management on bug fixes and feature enhancements, translating customer feedback into actionable product improvements.
- Assisted customers with **billing, invoice, and account management** queries, ensuring accurate record-keeping and timely resolution.
- Onboarded new customers to the platform, providing guidance on **eCommerce best practices** and initial setup to accelerate their time-to-value.
- Analyzed customer support tickets using **Splunk and Dynatrace** to identify recurring issues and trends, informing proactive solutions.
- Managed **AWS EC2 and S3** resources for internal tools, ensuring availability and basic security configurations for development environments.

SKILLS

eCommerce & SaaS – eCommerce best practices, SaaS support, Billing, Invoicing, Account management, Customer onboarding

Customer Support Tools – Phone support, Email support, Chat support, Ticketing systems, Jira, Confluence

Web Technologies – HTML, CSS, Javascript, JQuery

Cloud & Infrastructure – AWS (EC2, S3, CloudWatch), Docker, Linux

Scripting & Automation – Python, Shell scripting

Data Analysis & Monitoring – Splunk, Dynatrace, SQL (PostgreSQL, MySQL, Oracle)

Programming Languages – Java, Spring Boot

PROJECTS

Customer Onboarding Automation for SaaS Platform

- Developed a Python-based automation script to streamline the initial setup process for new SaaS customers, reducing manual configuration time by **~30%**.
- Integrated the script with internal customer databases and a REST API to pull account-specific configurations, ensuring a personalized onboarding experience.
- Created detailed user guides and conducted virtual training sessions for the customer success team on utilizing the new onboarding automation tool.

Internal Tooling for Support Ticket Analysis (HCL Technologies)

- Built a Python ETL script to aggregate and clean support ticket data from multiple sources, preparing it for analysis.
- Designed and implemented SQL queries against a PostgreSQL database to extract key metrics on ticket volume, resolution times, and common issue categories.
- Generated summary reports on ticket trends, which were used by the operations team to identify areas for process improvement and reduce P1/P2 incidents by **15%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021
