PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Collaborated with enterprise clients to elicit and document operational processes, translating them into structured workflows within the **Confidence platform**.
- Delivered live product demonstrations of the **Confidence platform** to client stakeholders, showcasing key features and value propositions.
- Analyzed client data to build persuasive business cases demonstrating the **Confidence platform's** impact on productivity and efficiency, presenting findings to senior management.
- Designed and implemented process improvements within the **Confidence platform**, identifying exceptions and recommending specific feature integrations for enhanced quality control.
- Collected and organized information from diverse client sources to drive process standardization and recommend platform enhancements based on usage patterns and feedback.
- Trained client teams on effective utilization of the **Confidence platform**, ensuring successful adoption and integration into their daily operations.
- Developed **Python scripts** to automate data extraction and analysis for client process reporting, reducing manual effort by an estimated **30%**.

SKILLS

Process Engineering – Business Process Management, Workflow Automation, Process Documentation, Process Optimization, Requirements Gathering

Client Engagement – Stakeholder Management, Client Onboarding, Product Demonstrations, Training Delivery, Business Case Development

Data Analysis & Reporting – Data Interpretation, Excel Proficiency, SQL, Python, Business Analysis

Platform Implementation – Software Implementation, Platform Adoption, User Training, Feature Recommendation

Core Technologies – Python, SQL, Excel, Linux, Agile Methodologies

PROJECTS

Enterprise Process Documentation and Automation Initiative

- Partnered with a banking client's operations team to map out critical reconciliation workflows, identifying bottlenecks and areas for automation.
- Developed a comprehensive documentation suite for existing operational procedures, forming the basis for digital transformation within the **Confidence platform**.
- Designed and configured automated alerts and validation rules within the **Confidence platform** to ensure data integrity and compliance for ~50 key financial transactions.

Client Workflow Optimization with Python and SQL

- Created a series of **Python scripts** to extract and aggregate data from disparate client systems for analysis of process efficiency.
- Wrote complex **SQL queries** against PostgreSQL databases to validate data accuracy and identify discrepancies in client operational logs.
- Delivered a report summarizing findings and recommending specific workflow adjustments to a client's business analysis team, leading to a targeted **15% improvement** in processing time for a key operational task.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
