PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, implementing RESTful APIs for core platform functionalities and integrating with backend data stores.
- Engineered **Python scripts** to automate data extraction, transformation, and loading (ETL) processes for operational reporting, reducing manual effort by approximately **40%**.
- Managed production incidents for enterprise applications, performing root cause analysis and implementing fixes within strict **Service Level Agreements (SLAs)**, resolving over **150 P1/P2 incidents**.
- Designed and implemented database schema changes and optimizations in **PostgreSQL** and **MySQL**, supporting new feature development and improving query performance.
- Containerized several Java applications using **Docker**, enabling consistent deployment across development and staging environments and preparing for cloud migration.
- Collaborated with cross-functional teams in an **Agile/Scrum** environment, participating in sprint planning, daily stand-ups, and code reviews to ensure timely delivery of features.
- Authored comprehensive **production runbooks** and documentation for critical systems, improving incident response time for the operations team by an estimated **20%**.

SKILLS

Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, JPA, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Kubernetes (basic)

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Methodologies – Agile, Scrum, CI/CD

PROJECTS

Connected Vehicle Data Ingestion Pipeline

- Developed a **Python-based ETL pipeline** on AWS Lambda to process and transform telemetry data streams from connected vehicles, handling approximately **2,000 events per second**.
- Implemented robust error handling and logging mechanisms using **CloudWatch**, ensuring data integrity and enabling quick diagnosis of ingestion failures.
- Designed the data schema for storing processed vehicle data in **PostgreSQL**, facilitating downstream analytics and reporting for product teams.

Enterprise System Integration Layer

- Built a **Java Spring Boot** microservice to act as an integration layer between an ERP system and a new customer portal, exposing REST APIs for data exchange.
- Integrated with backend systems using **Hibernate** for object-relational mapping and managed database interactions with **Oracle**, ensuring transactional consistency.
- Wrote comprehensive **JUnit tests** and participated in code reviews to maintain high code quality and ensure seamless integration with upstream and downstream services.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
