PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided **first-line technical support** to approximately 150 end-users via the **Jira ticketing system**, resolving an average of 12 tickets per day.
- Installed and configured **Windows 11 desktops, printers, and mobile devices** for new hires, ensuring seamless integration into the corporate network.
- Managed **Microsoft 365 accounts**, including user provisioning, email setup, and **OneDrive access**, supporting a user base of over 200 employees.
- Performed routine **system checks** and applied **Windows updates** and security patches to maintain system integrity and compliance.
- Assisted with basic **network troubleshooting** for **Wi-Fi, LAN connectivity, and VPN access**, reducing user-reported network issues by 18% for assigned tickets.
- Maintained an accurate **IT asset inventory**, tracking over 300 hardware assets including laptops, monitors, and peripherals.
- Documented common IT issues and their resolutions in the Confluence knowledge base, creating **15 new articles** that reduced average resolution time for recurring problems.

SKILLS

Operating Systems – Windows 11, Linux

Cloud & Collaboration – Microsoft 365, Outlook, Teams, OneDrive, AWS (EC2, S3, Lambda, CloudWatch)

IT Support Tools – Jira, Confluence, Splunk, Dynatrace

Networking – Wi-Fi, LAN, VPN, IP Addressing, DNS, DHCP

Hardware & Peripherals – Desktops, Laptops, Printers, Mobile Devices

Administration – Active Directory, User Account Management, System Updates, Asset Inventory

PROJECTS

End-User Support & System Deployment

- Deployed and configured over **50 new Windows laptops** and associated peripherals for a major client onboarding initiative at HCL Technologies.
- Managed user account creation and permission setting within a **Linux environment** for a team of 25 developers, ensuring adherence to security policies.
- Authored comprehensive **installation guides** for common software packages, reducing deployment time for new workstations by 30%.

IT Operations Dashboard & Automation

- Developed **Python scripts** to automate the generation of weekly IT operational reports, consolidating data from multiple sources into a single dashboard view.
- Assisted in monitoring system performance using **Splunk dashboards**, identifying and flagging potential issues before they impacted end-users.
- Contributed to the maintenance of a **Jira Service Desk** instance, ensuring accurate logging and tracking of all incoming support requests.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021
