PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided first-line technical support to end-users via a **ticketing system**, diagnosing and resolving issues across **Windows** desktops and laptops.
- Configured and deployed new user accounts, **Microsoft 365** services (Outlook, Teams, OneDrive), and company-issued hardware for onboarding employees.
- Assisted with routine IT administration tasks including system checks, software updates, and maintaining the **IT asset inventory**.
- Troubleshoot basic **network connectivity** issues for end-users, including Wi-Fi, LAN, and VPN access, escalating complex problems to the IT manager.
- Documented common IT issues and their resolutions in the knowledge base, contributing to a more efficient **helpdesk support** process.
- Supported the administration of **Active Directory**, managing user accounts and group memberships to ensure proper access controls.
- Monitored system performance and reported potential issues, adhering to IT policies and security procedures to maintain operational integrity.

SKILLS

Operating Systems – Windows, Linux

Cloud & Productivity Suites – Microsoft 365, Outlook, Teams, OneDrive, AWS

Networking – Wi-Fi, LAN, VPN, IP addressing, DNS, DHCP

IT Support Tools – Ticketing Systems, Active Directory, IT Asset Management

Hardware & Software – Desktop/Laptop Configuration, Printer Setup, Mobile Device Support

Methodologies – Agile/Scrum, Change Management, Cybersecurity Best Practices

PROJECTS

End-User Support Enhancement Initiative (HCL Technologies)

- Developed and implemented a streamlined process for triaging and resolving common end-user hardware and software issues within the IT support team.
- Created a comprehensive knowledge base of troubleshooting steps and solutions for frequently encountered problems, reducing average ticket resolution time by **15%**.
- Assisted in the setup and configuration of new employee workstations, ensuring all necessary software and network access were provisioned prior to their start date.

IT Asset Management System Rollout (HCL Technologies)

- Contributed to the implementation of a new IT asset management system, tracking hardware and software licenses across the organization.
- Performed data entry and validation for over **500** IT assets, ensuring accuracy and completeness of the inventory database.
- Supported the IT manager in generating reports on asset allocation and lifecycle status for departmental audits.
