PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Built and deployed **autonomous AI agents** using **Claude Code** and **n8n** for inbound lead qualification, directly improving SDR response times by **18%**.
- Operated and iterated on live **GTM automation workflows**, monitoring performance and implementing optimizations that reduced manual data entry by **~30%** across sales operations.
- Managed the end-to-end rollout of new **AI tools** to revenue teams, developing **training materials** and supporting change management to ensure **over 85%** adoption.
- Designed and documented scalable **SOPs and playbooks** for AI agent deployment and maintenance, enabling global team access to automation best practices.
- Collaborated with Sales, SDR, and Marketing teams to identify workflow pain points, translating them into actionable **automation opportunities**.
- Supported **revenue tech stack performance** by flagging integration gaps in **Salesforce** and working with stakeholders to resolve them.
- Containerized **AI agent services** with Docker and deployed them to an AWS **Kubernetes** cluster (EKS), configuring basic resource limits for predictable performance.

SKILLS

AI/ML Tools – Claude Code, n8n, AI Studio

Cloud & Containerization – AWS, EC2, S3, Lambda, CloudWatch, Docker, Kubernetes

Programming & Scripting – Python, Java, Spring Boot, SQL

GTM & Operations – Salesforce, Outreach, Lead Routing, Demand Funnel Metrics, RevOps, Growth Ops

Development Practices – Git, Jenkins, CI/CD, Code Reviews, Agile, Scrum

PROJECTS

AI Agent for Inbound Lead Qualification

- Developed and deployed an **AI agent** using **Claude Code** and **n8n** to automatically qualify inbound leads based on predefined criteria, reducing manual review time by **40%**.
- Integrated the agent with **Salesforce** to create and update lead records, ensuring seamless data flow and improving data accuracy.
- Designed a feedback loop mechanism to capture agent performance and user input for continuous improvement of qualification accuracy.

Automated Outreach Sequence Generation

- Engineered a Python script to generate personalized outreach sequences for SDRs, analyzing lead data from **Salesforce** and identifying key engagement points.
- Implemented logic to select optimal communication channels and content based on lead profile and historical engagement data, aiming to increase response rates.
- Built a simple REST API using **FastAPI** to serve generated sequences on demand, enabling SDRs to access tailored outreach content efficiently.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
