PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and deployed enterprise-grade network solutions for **new customer environments**, focusing on **HPE Aruba** switching and wireless platforms.
- Provided expert guidance on **network strategy**, including **segmentation**, **scalability**, and **security design** for client infrastructures.
- Oversaw the maintenance and performance of customer network infrastructure, including **firewalls (Fortinet/FortiGate)**, switches, and wireless access points.
- Acted as a senior escalation point for complex network incidents, leading **root-cause analysis (RCA)** and developing remediation strategies.
- Collaborated with **VoIP, Managed Services, and Cybersecurity teams** on integrated solution deployments and cross-functional projects.
- Mentored junior network engineers, providing **technical leadership** and knowledge-sharing on best practices for network configuration and deployment.
- Containerized network management tools and deployed them to **Kubernetes clusters** on **AWS**, ensuring efficient resource utilization and simplified updates.

SKILLS

Networking Hardware – HPE Aruba, Fortinet, FortiGate, Palo Alto, Wireless Access Points

Network Concepts – Switching, Wireless, Firewalls, NAC, AAA, Segmentation, Scalability, Security Design

Cloud Platforms – AWS, Azure, Microsoft 365

Operating Systems – Linux, Microsoft Windows

Tools & Technologies – Kubernetes, Docker, Jenkins, Git, Splunk, Dynatrace, Python, Java

Methodologies – Agile, Scrum, Root Cause Analysis (RCA)

PROJECTS

Enterprise Network Deployment Automation (HCL Technologies)

- Automated the configuration and deployment of **HPE Aruba** switches and **Fortinet** firewalls for new client sites using Python scripting, reducing deployment time by approximately **30%**.
- Developed reusable Ansible playbooks to standardize network configurations, ensuring adherence to **security design** principles and best practices across diverse customer environments.
- Integrated deployment scripts with **Jenkins CI/CD pipelines** to facilitate repeatable and reliable network infrastructure rollouts.

Customer Network Monitoring and Health Dashboard (HCL Technologies)

- Developed a monitoring solution using **Splunk** to aggregate logs from various network devices (firewalls, switches, WAPs) for **transaction monitoring** and performance analysis.
- Created custom dashboards within **Splunk** to visualize network health, identify potential bottlenecks, and track key performance indicators for a financial-services client.
- Implemented automated alerting mechanisms for critical network events, reducing incident response time by an average of **15 minutes**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
