PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Responded to **60+ daily** inbound telephone and email queries from end-users, providing first-tier technical support and resolution for ICT issues.
- Managed user accounts within **Active Directory**, including creation, modification, and removal for new hires, transfers, and departures, ensuring timely access provisioning and deprovisioning.
- Provided **remote assistance** to users for PC setup, smart device configuration, and application access issues, reducing the need for on-site intervention for common problems.
- Performed **PC imaging and setup** for new employee workstations, ensuring all necessary software and configurations were deployed efficiently to meet onboarding timelines.
- Handled password resets and application access upgrades/downgrades through **MECM** and other management tools, maintaining security protocols and user productivity.
- Executed **backup and restore** operations for user data and critical system files, adhering to defined schedules and recovery point objectives.
- Triageed and escalated **break/fix** issues, documenting and assigning complex requests to 2nd-level support teams or specific business system experts when resolution was beyond the Help Desk scope.

SKILLS

Operating Systems – Windows Server (2011/2016/2019), Windows 10/11 Desktop

Directory Services & Management – Active Directory, DNS, DHCP, Group Policies, OU's, MECM

Productivity & Collaboration – Microsoft Office Applications and Suites, SharePoint, Webex, Jabber, Teams, Zoom

System Administration & Support – Citrix Workspace, Cisco IronPort, SafeNet Remote Access, Cisco Call Manager, Citrix ShareFile, Remote Support Tools (Netsupport)

Core IT Support – User Account Management, Password Resets, PC Imaging, Smart Device Support, Backup/Restore, 1st Tier Issue Resolution

PROJECTS

User Account & Access Management System

- Developed a Python script to automate the creation and configuration of new user accounts in **Active Directory** based on HR onboarding data, reducing setup time by **40%**.
- Implemented logic for managing application access rights (upgrade/downgrade) for a suite of internal business applications, ensuring compliance with role-based access controls.
- Integrated with a ticketing system to track and manage user account requests, providing audit trails for all access changes and modifications.

Desktop Deployment & Configuration Automation

- Engineered a **PC imaging process** using SCCM (MECM) to standardize desktop configurations for over **50 new hires** in the last quarter.
- Automated the deployment of essential software suites, including **Microsoft Office** and core business applications, via scripted installations.
- Developed shell scripts to perform post-imaging configuration tasks, such as mapping network drives and setting up printers for user convenience.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
