PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided **first-level IT support** for desktop, laptop, and printer hardware and software issues, resolving **~85% of tickets** without escalation.
- Updated and maintained detailed records of all user queries and resolutions within the **incident logging system**, ensuring accurate tracking and follow-up.
- Collaborated with end-users to understand and troubleshoot issues, ensuring their needs were met and confirming satisfaction post-resolution.
- Managed and maintained the operational status of **desktop and laptop PCs**, performing regular checks and updates to ensure optimal performance.
- Escalated complex or unresolved issues to senior IT staff, providing clear and concise documentation of the problem and initial troubleshooting steps.
- Supported **Microsoft Office Suite** applications, assisting users with common queries related to Word, Excel, Outlook, and PowerPoint.
- Contributed to the maintenance of IT infrastructure by managing user accounts and access permissions within the **Active Directory** environment.

SKILLS

Operating Systems – Windows Support, Linux

Hardware Support – Desktop Support, Laptop Support, Printers

Software Support – IT Support, Microsoft Support, MS Office Support

Ticketing Systems – Jira, Incident Logging

Core Technologies – Active Directory, M365

PROJECTS

Enterprise Desktop Support Enhancement (HCL Technologies)

- Streamlined the process for logging and tracking IT support tickets for a large user base, improving resolution times by **~18%**.
- Developed a knowledge base of common hardware and software issues and their solutions, reducing escalations for basic problems by **30%**.
- Assisted in the deployment and configuration of new hardware and software across user workstations, ensuring smooth integration with existing systems.

User Onboarding & System Access Management (HCL Technologies)

- Managed the creation and deactivation of user accounts and permissions within the **Active Directory** system for new hires and departing employees.
- Provided end-user support for initial system setup and access requirements during the onboarding process, ensuring users were productive from day one.
- Documented standard operating procedures for user account management and access provisioning, contributing to team efficiency and consistency.
