PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **REST APIs** using **Java Spring Boot** for inter-service communication, handling approximately **500 requests per minute** during peak loads.
- Developed and maintained **Hibernate** mappings and queries to efficiently manage data persistence across relational databases, ensuring data integrity for core application modules.
- Wrote comprehensive **JUnit** tests and utilized **Mockito** for mocking dependencies, achieving over **90% code coverage** for newly developed Java components.
- Participated in **agile software development** ceremonies, including sprint planning and daily stand-ups, contributing to the estimation and delivery of medium-complexity tasks.
- Diagnosed and resolved performance bottlenecks within backend services by analyzing application logs and system metrics, improving response times by an average of **18%**.
- Collaborated with cross-functional teams to integrate new services with existing internal systems and data fabrics, ensuring seamless data flow and system compatibility.
- Containerized Java applications using **Docker** and deployed them to **AWS EC2** instances, managing configurations and basic resource allocation.

SKILLS

Backend Development – Java, Spring Boot, Hibernate, JPA, REST APIs, Microservices, SOA, J2EE, JDK 1.7+

Frontend Development – JavaScript, HTML, CSS, Angular, Bootstrap

Databases – SQL, MySQL, SQL Server

Cloud Platforms – AWS, GCP, Azure

DevOps & Tools – CI/CD, Git, Github, Maven, Gradle, Docker, JIRA, Confluence

Testing & Quality – Unit Testing, JUnit, Selenium, LoadRunner, SoapUI, Performance Testing

PROJECTS

Java Enterprise Application Modernization

- Refactored legacy Java EE components into a modern **Spring Boot** microservice architecture, improving modularity and maintainability.
- Implemented robust data access layers using **Hibernate** and **PostgreSQL**, optimizing complex queries for batch processing of financial transaction data.
- Developed a suite of **REST APIs** to expose core business logic, enabling integration with downstream reporting tools and enhancing data accessibility for analytical teams.

Customer Data Integration Platform

- Built a scalable **Java** application to ingest and process customer data from various sources, supporting a critical client onboarding workflow.
- Integrated with internal data fabric APIs to enrich customer profiles, ensuring consistency and accuracy for downstream analytics and service delivery.
- Deployed the platform on **AWS**, configuring EC2 instances and setting up basic monitoring via CloudWatch to ensure operational stability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
