PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided **1st and 2nd level support** for end-users across **Windows** and **macOS** environments, resolving an average of **25 tickets** per day.
- Troubleshoot and resolved issues with **desktops, laptops, and printers**, ensuring minimal disruption to end-user productivity.
- Assisted with **Microsoft 365 administration**, including user account management, password resets, and basic configuration of Teams and OneDrive.
- Managed and resolved incidents within agreed **SLAs**, escalating complex issues to senior engineers and documenting resolutions in **Jira**.
- Performed basic **Active Directory** tasks, such as user creation, group membership updates, and password resets for enterprise clients.
- Supported end-users with **mobile device** setup and troubleshooting across **iOS** and **Android** platforms.
- Contributed to small **field support** tasks and **device deployments** for client site visits, following established procedures for security and compliance.

SKILLS

Operating Systems – Windows, macOS, Linux

Cloud & Virtualization – Microsoft 365, Azure Virtual Desktop, AWS (EC2, S3, Lambda, CloudWatch)

Core IT Support – Active Directory, User Account Management, Password Resets, Incident Management, SLA Management, Field Support, On-site Support

Productivity Suites – Microsoft 365 (Teams, OneDrive, SharePoint), Google Workspace, Slack

Hardware & Devices – Desktops, Laptops, Printers, Mobile Devices (iOS, Android)

Tools & Methodologies – Jira, Confluence, Jenkins, Git, Docker, Agile/Scrum

PROJECTS

Enterprise Desktop & M365 Deployment Support

- Executed deployment of **new company laptops** and workstations to over **50 employees**, including OS imaging and core application installation.
- Configured and supported user access to **Microsoft 365 services**, including mailbox setup and OneDrive synchronization for a team of 15 new hires.
- Documented standard operating procedures for **desktop troubleshooting** and ticket escalation, which reduced average resolution time by **15%**.

IT Support Automation and Documentation Initiative

- Developed **Python scripts** to automate routine **Active Directory** tasks, such as bulk user deactivation and group membership updates for the IT operations team.
- Created comprehensive troubleshooting guides and **runbooks** for common hardware and software issues, accessible via **Confluence** for internal support staff.
- Assisted in the migration of **ticketing system** data from an older platform to **Jira Service Desk**, ensuring data integrity for over 5,000 historical tickets.
