PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed sample lifecycle from receipt to shipment for analysis, coordinating complex sample pulls and aliquoting activities for an enterprise client's laboratory operations.
- Administered all sample-related documentation, including receipt and review of external sample results, ensuring accurate entry onto LIMS and adherence to **GMP** and data integrity standards.
- Generated **environmental monitoring** and **water analysis reports**, delivering agreed quality and business metrics to stakeholders, proactively identifying process improvement opportunities.
- Supported laboratory analytical personnel with ad-hoc requests for sample pulls and sample-related information, ensuring uninterrupted service delivery.
- Maintained comprehensive documentation, systems, and training records in accordance with company, client, and **quality standards**, escalating deviations as needed.
- Collaborated effectively with client personnel and suppliers to meet or exceed requirements, ensuring delivery against client processes and demonstrating flexibility across business areas.
- Containerized data processing scripts with **Docker** and deployed them to **AWS EC2** instances, configuring basic resource limits for predictable rollout and monitoring via **CloudWatch**.

SKILLS

Laboratory Operations – Sample Management, Aliquoting, Sample Tracking, Reference Material Inventory, Environmental Monitoring, Water Analysis

Quality & Compliance – Good Manufacturing Practices (GMP), Data Integrity, Regulatory Compliance, Audit Trails, Documentation Management

Laboratory Information Systems – LIMS, Data Entry, Reporting, Analytical Testing

Technical Skills – Python Scripting, SQL, AWS EC2, Docker, CloudWatch, Linux Shell Scripting

Collaboration & Communication – Client Interaction, Stakeholder Engagement, Team Collaboration, Process Improvement, Vendor Management

PROJECTS

Enterprise Sample Tracking System Enhancement

- Developed Python scripts to automate the ingestion and validation of sample metadata into a client's **LIMS**, reducing manual data entry errors by approximately 30%.
- Engineered automated reporting modules using **SQL** queries against a PostgreSQL database to generate weekly operational metrics on sample throughput and turnaround times.
- Implemented containerization for data processing scripts using **Docker**, ensuring consistent execution environments for batch processing tasks within the laboratory's IT infrastructure.

Laboratory Operations Process Improvement Initiative

- Mapped existing sample receipt and processing workflows, identifying bottlenecks and proposing optimizations to improve efficiency and reduce lead times by an estimated 15%.
- Documented revised standard operating procedures (SOPs) for sample handling and data recording, ensuring compliance with **GMP** and data integrity standards.
- Collaborated with laboratory analysts to gather feedback on new procedures, facilitating smoother adoption and ensuring adherence to quality requirements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
