PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided **1st and 2nd level IT support** to clients, addressing common issues such as password resets, printer malfunctions, and PC performance degradation.
- Monitored and responded to incoming support requests via phone and email, aiming for **first call resolution** on all cases.
- Managed and monitored **client backups** and assessed the proactive health of client systems, escalating critical issues as needed.
- Delivered **outstanding customer service** by maintaining courteous and professional interactions, ensuring client expectations were consistently met or exceeded.
- Completed offsite project tasks including **PC installations** and site IT audits, providing remote troubleshooting support for end-users.
- Administered **Microsoft Active Directory** for user account management and group policy application, supporting approximately 500 user accounts across multiple client environments.
- Configured and maintained **Windows Servers** and managed network patching, switches, and wireless installations to ensure optimal client infrastructure performance.

SKILLS

Operating Systems – Windows 11, Windows Server, Linux

Microsoft 365 – Email, OneDrive, Office 365 Administration

Networking – Fundamentals of Networking, Switches, Wireless Installations, Network Patching

Hardware Support – Laptop, Desktop, Mobile Hardware Support

IT Support Tools – Ticketing Systems, Remote Support Tools

Directory Services – Active Directory Administration

Cloud Services – AWS (EC2, S3, Lambda, CloudWatch)

PROJECTS

Client Infrastructure Health Monitoring System

- Developed a Python-based monitoring script to track the health of client servers and network devices, integrating with **AWS CloudWatch** for alert aggregation.
- Implemented automated checks for disk space, CPU utilization, and service status, reducing critical system alerts by **18%** through early detection.
- Created a centralized reporting dashboard using **Power BI** to visualize system uptime and performance metrics for key enterprise clients.

End-User IT Support Automation Suite

- Built a suite of **Python scripts** to automate common IT support tasks, including user account lockout resets and software deployment checks.
- Streamlined the process of handling **password resets**, reducing average resolution time by **30%** for Tier 1 support staff.
- Developed basic shell scripts for **Linux** log analysis to expedite troubleshooting of server-side issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
