PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Administered and supported the **IBM WebMethods integration platform**, including **Integration Server** and **API Gateway**, ensuring high availability for core business processes.
- Managed the **build and release process** for multiple application environments, coordinating with development, QA, and operations teams to maintain consistent deployments.
- Developed and maintained **CI/CD pipelines** using **Jenkins** and **Git**, automating build, test, and deployment stages to accelerate delivery cycles.
- Provided operational support for the integration platform, including **monitoring system performance**, managing upgrades, patching, and performing **root cause analysis** for incidents.
- Enhanced release processes through **automation** using **Bash** and **Python** scripting, reducing manual intervention by approximately **40%** for routine deployment tasks.
- Supported application releases and urgent system incidents during evenings and weekends, ensuring minimal disruption to critical business operations and adhering to strict SLAs.
- Containerized applications using **Docker** and deployed them to **Linux (RHEL)** environments, configuring basic resource limits for predictable performance.

SKILLS

Platform Administration – IBM WebMethods, Integration Server, API Gateway, Deployer

CI/CD & DevOps Tools – Jenkins, Git, Bitbucket, Ansible, Bash, Python

Containerization & Orchestration – Docker, Kubernetes

Operating Systems – Linux (RHEL), Windows

API & Messaging – APIs, REST, SOAP, Messaging Concepts

PROJECTS

WebMethods Platform Stability Initiative

- Enhanced the stability of the **IBM WebMethods platform** by implementing proactive monitoring and alerting using **Splunk**, reducing critical incidents by **15%**.
- Automated environment configuration management for staging and production instances using **Ansible** playbooks, ensuring consistent deployments across the landscape.
- Developed comprehensive runbooks for common operational tasks, enabling faster incident response and knowledge transfer within the support team.

Automated Deployment Pipeline for Integration Services

- Built a new **CI/CD pipeline** using **Jenkins** to automate the deployment of integration services to **Linux** environments, cutting manual deployment time from 2 hours to **20 minutes**.
- Integrated **Docker** into the pipeline to containerize applications, improving consistency and simplifying dependency management across development and production.
- Collaborated with development teams to integrate their services into the automated pipeline, ensuring adherence to release standards and best practices.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
