PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Terraform modules** for provisioning Azure resources, including VNets, subnets, and network security groups, under senior engineer guidance.
- Contributed to the operation of multi-tenant **Kubernetes clusters on AKS**, deploying and monitoring application workloads using Helm charts.
- Wrote and executed **Bash and Python scripts** to automate routine platform tasks, reducing manual intervention for tasks like log aggregation and health checks.
- Implemented pre-defined **network policies and RBAC configurations** within Kubernetes to enforce security and access controls for various namespaces.
- Collaborated on building and maintaining self-service catalog components for shared platform resources, enabling application teams to provision services efficiently.
- Assisted in managing GitOps delivery pipelines using **ArgoCD and GitLab CI/CD**, ensuring consistent and automated deployments to the Kubernetes platform.
- Authored detailed **runbooks and operational documentation** for platform services, facilitating knowledge sharing and supporting on-call readiness.

SKILLS

Cloud Platform – Azure, AWS, GCP, AKS, Azure Networking, VNets, Subnets, VPCs, CloudWatch

Container Orchestration – Kubernetes, Helm, Kustomize, Pods, Deployments, Services, Namespaces, RBAC

Infrastructure as Code – Terraform, Bash Scripting, Python

CI/CD & GitOps – GitLab, ArgoCD, Git

Observability – Grafana Cloud, Prometheus, Grafana

Networking & Security – TCP/IP, DNS, Network Policies, SAML, OIDC

PROJECTS

AKS Kubernetes Platform Enhancement (HCL Technologies)

- Developed reusable **Terraform modules** for deploying standardized Kubernetes cluster configurations on AKS, incorporating best practices for networking and security.
- Implemented **ArgoCD** for GitOps-driven deployments to the AKS environment, managing Helm chart releases and ensuring declarative state management.
- Authored comprehensive **runbooks** detailing cluster upgrade procedures and common troubleshooting steps for platform engineers.

Platform Automation with Python and Bash (HCL Technologies)

- Created **Python scripts** to automate the collection and aggregation of metrics from multiple AWS services (EC2, Lambda) into a centralized dashboard.
- Developed **Bash scripts** to streamline log file analysis and alert generation based on predefined error patterns, reducing manual log review time by approximately 30%.
- Integrated automation scripts into a **Jenkins CI/CD pipeline** for automated testing and deployment to development environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
