PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided technical support for **enterprise Java/.NET applications**, managing SLAs and responding to P1/P2 incidents using **Splunk** and **Dynatrace**.
- Developed **Python scripts** for automating data pipelines, ETL processes, and generating scheduled reports, improving data processing efficiency by **~15%**.
- Executed ad-hoc queries and performed data validation for **PostgreSQL** and **MySQL** databases, including schema change management for core operational systems.
- Assisted customers with troubleshooting and resolving issues related to **Forcepoint products** and integrated third-party software, ensuring optimal performance and value.
- Gathered **logs and configuration details** from customer environments, attempting to reproduce reported issues to facilitate root cause analysis.
- Researched and documented solutions for customer-reported problems, utilizing the internal **Knowledge Base** and collaborating with team members for complex issues.
- Containerized **Java Spring Boot** applications using **Docker** for consistent deployment across development and production environments.

SKILLS

Core Technologies – Java, Spring Boot, Python, SQL, REST APIs, Docker, Linux, Git, Jenkins

Cloud & Monitoring – AWS (EC2, S3, Lambda, CloudWatch), Splunk, Dynatrace

Databases – PostgreSQL, MySQL, Oracle

Operating Systems – Linux, Windows Application Support

Networking – TCP/IP, DNS, Layer 2/3

Security Concepts – Information Security, Data Classification, DLP

Containerization & Orchestration – Docker, Kubernetes Fundamentals

PROJECTS

Enterprise Application Support & Automation Framework

- Developed a Python-based framework to automate the retrieval and analysis of application logs from **Splunk** for common P1/P2 incident patterns, reducing manual triage time by **~30%**.
- Engineered **Java Spring Boot** microservices to integrate with an existing ERP system, exposing REST APIs for cross-system data exchange and improving data consistency across modules.
- Implemented comprehensive unit tests for new API endpoints using **JUnit**, achieving over **85%** code coverage for critical business logic.

Customer Issue Replication & Knowledge Base Enhancement

- Built a local testing environment mimicking customer configurations to reliably reproduce reported issues with **Forcepoint products**, enabling faster debugging.
- Authored and updated over **50 articles** in the internal Knowledge Base detailing common troubleshooting steps and resolutions for complex technical issues, aiding junior support engineers.
- Performed packet capture and analysis using **Wireshark** on network traffic to diagnose connectivity problems between customer endpoints and Forcepoint services.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
