## PROFESSIONAL EXPERIENCE

---

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided **face-to-face IT support** to end-users in the Dublin Head Office, resolving hardware and software issues via the **ITSM tool** and **telephony systems**.
- Managed **assetization**, configuration, and preparation of **hardware and software installations** for new and existing end-users, ensuring timely deployment.
- Created and updated **technical documentation** and knowledge base articles for the IT team, improving information sharing and standardizing support procedures.
- Collaborated with wider IT teams to troubleshoot and resolve complex IT incidents, demonstrating **problem-solving ability** and initiative in a fast-paced environment.
- Configured and maintained **Windows desktop and server operating systems**, ensuring optimal performance and security for end-user devices and internal systems.
- Assisted with **Active Directory** user account management, including password resets and group policy application, supporting daily IT operations.
- Responded to and resolved IT support tickets, maintaining a customer-focused approach and aiming for **resolution-driven** outcomes within defined SLAs.

## SKILLS

---

**Core IT Support** – ITSM tool, Ticketing Systems, Telephony Systems, Face-to-Face Support, Problem Solving, Customer Service, Asset Management, Hardware Configuration, Software Installation, Windows Desktop, Windows Server, Active Directory, Group Policy, DNS, DHCP

**Networking** – Cisco Networking Systems

**Scripting & Automation** – Python

**Databases** – SQL Query Language

**Development & Operations** – Java Spring Boot, REST APIs, AWS, Docker, Linux

**Collaboration & Documentation** – Jira, Confluence

## PROJECTS

---

### End-User Support Enhancement Initiative (HCL Technologies)

- Developed a standardized onboarding checklist for new hires, streamlining the process of hardware and software setup, reducing setup time by approximately **15%**.
- Authored comprehensive troubleshooting guides for common software issues, which were integrated into the team's knowledge base, leading to a **20%** reduction in repeat ticket escalations.
- Provided direct technical support for a user base of over **500 employees** across multiple departments, addressing a wide range of hardware, software, and network connectivity issues.

### IT Asset Management System Improvement (HCL Technologies)

- Implemented a Python script to automate the tracking of IT assets, integrating with existing inventory data to improve accuracy and reduce manual data entry by **30%**.
- Assisted in the configuration and deployment of new workstations, ensuring all necessary software and security configurations were applied before user assignment.
- Documented the updated asset management process, including hardware lifecycle management and disposal procedures, for team-wide adoption.
