PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and developed **RESTful ABAP programs** for SAP enhancements, focusing on modern extensibility patterns and data manipulation.
- Participated in the full lifecycle of SAP projects, from requirement gathering through to post-implementation support, ensuring seamless integration with existing business processes.
- Provided technical guidance and conducted code reviews for junior developers, ensuring adherence to **Clean core guiding principles** and fostering a culture of continuous learning.
- Developed and maintained comprehensive technical documentation, including detailed design specifications and test plans for SAP solutions.
- Collaborated with functional teams and project managers to translate complex business requirements into effective technical solutions within SAP environments.
- Adapted cloud-based applications using **SAP Cloud Platform tools** and embraced a cloud mindset for application development and deployment.
- Containerized SAP application components using **Docker**, enabling consistent deployment across development, testing, and production environments on AWS.

SKILLS

SAP Technologies – SAP BTP, ABAP, SAP Fiori, SAPUI5, CAP, HANA Cloud, RAP, OData, SAP SD, MM, FI/CO, SAP Build Work Zone, Business Application Studio, GIT, S/4HANA, RISE, IDocs, RFC, BAPI, SOAP, REST, AEM, SAP Datasphere, Flexible Workflow, Joule, SAP Automotive Suite

Development Methodologies – Agile, Scrum, Clean core principles

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle, HANA Cloud

Programming Languages – Java, Python, ABAP

Tools & Technologies – Docker, Jenkins, Jira, Confluence, Splunk, Dynatrace, Git

PROJECTS

SAP ERP Integration Layer (HCL Technologies)

- Developed a **Java Spring Boot microservice** to act as an intermediary layer for integrating SAP ERP modules with external enterprise systems via REST APIs.
- Implemented data transformation logic using **JPA and Hibernate** to map complex data structures between SAP and non-SAP databases (PostgreSQL, Oracle).
- Containerized the microservice using **Docker**, creating a repeatable deployment artifact managed through Jenkins CI/CD pipelines.

Automated SAP Configuration Deployment (HCL Technologies)

- Created **Python scripts** to automate the deployment of configuration changes within SAP modules, reducing manual effort and potential for error.
- Integrated Python scripts with SAP's configuration management tools, ensuring changes were applied consistently across different SAP instances.
- Developed shell scripts for Linux environments to orchestrate the deployment process, including pre- and post-deployment validation checks.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
