PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Investigated and resolved customer-reported issues including account support requests and potential bugs using **Jira** and internal ticketing systems.
- Gathered, analyzed, and actioned **relevant data** from user feedback and system logs to identify workflow inefficiencies and propose improvements, contributing to a **15% reduction** in reported user friction.
- Served as an advocate for the user community, becoming knowledgeable about **client policies** and guidelines to ensure accurate and empathetic customer support via **chat and email**.
- Developed **Python scripts** to automate data extraction and reporting for operational analysis, reducing manual effort by approximately **8 hours per week** for the support team.
- Implemented **Java Spring Boot** features for internal tooling, including a new REST API for data validation that handled approximately **50 requests per minute**.
- Containerized a **Java Spring Boot** application using **Docker** and deployed it to an **AWS EC2** instance, improving deployment consistency and reducing setup time by **30%**.
- Managed production incidents for enterprise applications, performing root cause analysis using **Splunk** and **Dynatrace** logs, and coordinating fixes within defined SLAs.

SKILLS

Development Tools – Unity C#, Unreal Engine C++, Github, Docker, Jenkins

Programming Languages – Python, Java, SQL, C#

Cloud & OS – AWS (EC2, S3, Lambda, CloudWatch), Linux

Databases – PostgreSQL, MySQL, Oracle

Support & Operations – Jira, Confluence, Splunk, Dynatrace, Incident Response, Change Management

Analytics & BI – Power BI, Tableau, R, pandas, NumPy, scikit-learn, DAX, Power Query

PROJECTS

Customer Support Automation Platform (HCL Technologies)

- Developed a **Python**-based application to automate the triaging of incoming customer support tickets, categorizing issues based on keywords and sentiment analysis.
- Integrated the platform with **Jira** and an internal CRM via REST APIs to streamline issue tracking and resolution, reducing manual data entry by **40%**.
- Designed and implemented a basic **command-line interface** for support agents to quickly search historical ticket data and derive root cause patterns.

Internal Payments Operations Dashboard Enhancement (HCL Technologies)

- Contributed to the enhancement of a **Java Spring Boot** application that supported a financial-services client's payments operations dashboard, focusing on transaction monitoring workflows.
- Wrote **SQL** queries against a **PostgreSQL** database to extract and validate transaction data for reconciliation reports, identifying and rectifying data discrepancies that impacted approximately **0.5%** of daily transactions.
- Assisted in the implementation of new alerting mechanisms for failed payment messages, improving detection time for critical issues by **20%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
