PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and deployed **Python** scripts to automate data extraction and transformation tasks for internal reporting, reducing manual effort by approximately **15 hours per week**.
- Designed and implemented **Java Spring Boot** REST APIs to facilitate data exchange between core enterprise systems and new operational tools, handling over **500 requests per minute**.
- Managed production support for critical enterprise applications, responding to P1/P2 incidents using **Splunk** and **Dynatrace** to ensure adherence to strict SLAs.
- Researched and tested emerging **AI tools**, including evaluating prompt engineering techniques for large language models to improve internal documentation quality.
- Built and improved **AI-assisted workflows** for customer service teams, integrating tools like **ChatGPT** via API to automate responses to common inquiries.
- Assisted with the development of an **AI knowledge base**, creating structured content and prompt templates for internal teams and customer-facing agents.
- Containerised backend services using **Docker** and deployed them to **AWS EC2** instances, configuring basic resource limits and networking rules.

SKILLS

AI & Automation – ChatGPT, AI Tools, Prompt Engineering, Workflow Automation, AI Knowledge Base Development, Generative AI

Programming Languages – Python, Java, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau, Microsoft Copilot, Make, Zapier, n8n

PROJECTS

AI-Powered Customer Support Workflow Automation

- Developed a Python-based automation solution integrating **ChatGPT** API to handle initial customer inquiries, reducing average response time by **40%**.
- Designed prompt templates and response logic to assist customer service agents with common issues, improving consistency and accuracy of support interactions.
- Documented the new AI-assisted workflow, including setup instructions and best practices for agents, facilitating a smoother rollout to the team.

Internal Process Automation with Python and APIs

- Created a Python script that interfaces with internal CRM and spreadsheet systems via **APIs** to automate weekly sales reporting generation.
- Implemented data validation checks and error handling within the script, ensuring data integrity and reducing manual correction needs by approximately **8 hours per cycle**.
- Packaged the script as an executable and provided user guidance, enabling sales operations to run the report independently.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
