## PROFESSIONAL EXPERIENCE

---

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **SQL queries** for workforce data analysis, supporting QBRs and ad hoc requests for business leaders across Sales and GTM organizations.
- Translated complex people data into clear, compelling narratives and recommendations for executive audiences, leading data storytelling initiatives.
- Partnered with HR Business Partners and senior leaders to proactively identify trends, risks, and opportunities in attrition, hiring, and performance using **workforce data**.
- Designed and implemented **scalable SQL modeling** and business-facing dashboards to provide self-service analytics capabilities for HR and business stakeholders.
- Contributed to the strategic roadmap of the People Analytics function by establishing and evolving **key performance indicators** (KPIs) and leading project initiatives.
- Assisted in connecting data across disparate people systems, uncovering trends in mobility, **organizational health**, and retention metrics.
- Containerized analytical solutions using **Docker** and deployed them to cloud environments, ensuring efficient and reproducible analysis pipelines.

## SKILLS

---

**Analytics & BI Tools** – Power BI, Tableau, Grafana BI, Excel, Google Sheets

**Data Analysis & Modeling** – SQL, DAX, Data Warehousing, Statistical Analysis, A/B Testing, Time-Series Analysis

**Programming & Scripting** – Python, R

**HR Systems & Data** – Workday, Greenhouse, People Data Analysis, Workforce Analytics

**Cloud & DevOps** – AWS, Docker, CI/CD, Jenkins, Git

**Data Engineering** – ETL, Data Pipelines, Power Query

## PROJECTS

---

### Sales Performance Analytics Dashboard

- Developed a **Power BI dashboard** to visualize key sales performance indicators, including hire velocity, attrition rates, and retention trends for GTM teams.
- Engineered **SQL queries** and **Power Query** transformations to extract and consolidate data from HR systems and sales CRM platforms for analysis.
- Collaborated with sales leadership to define critical metrics and ensure the dashboard provided actionable insights for strategic decision-making.

### Workforce Attrition Predictive Modeling

- Built a **Python-based analytical solution** using pandas and scikit-learn to identify key drivers of employee attrition within a large enterprise dataset.
- Trained a **logistic regression model** on a ~15,000-record employee dataset, achieving approximately 0.78 AUC for predicting voluntary attrition.
- Presented findings and model insights to HR stakeholders, highlighting factors such as role satisfaction, tenure, and manager feedback.

## EDUCATION

---

**M.Sc. Data Analytics — National College of Ireland, Dublin**

Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India**

2021

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
