PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** REST APIs for inter-service communication, handling approximately **4,500 requests per hour**.
- Developed and maintained backend services using **Java and Hibernate**, ensuring data integrity across multiple relational databases.
- Authored **JUnit** tests and utilized **Mockito** for mocking dependencies, achieving over **85% code coverage** for critical Java modules.
- Contributed to the design and implementation of **Flutter** mobile applications, translating UI/UX designs into interactive user interfaces for both iOS and Android platforms.
- Built and shipped end-to-end product features in a **0→1 environment**, collaborating with product and design teams to define requirements and deliver production-ready functionality.
- Integrated **AI capabilities** into user-facing workflows, enabling intelligent data processing and enhanced user experiences within the fintech platform.
- Managed application deployments and CI/CD pipelines using **Jenkins**, ensuring efficient and reliable release cycles for both backend services and Flutter applications on **AWS**.

SKILLS

Backend Development – Java, Spring Boot, Hibernate, REST APIs, Microservices, API Design, Data Modelling

Frontend Development – Flutter, Mobile-First Applications, UI/UX Implementation, Component Libraries

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, CI/CD, Jenkins

Databases – PostgreSQL, MySQL, Oracle, SQL

Programming & Scripting – Python, Shell Scripting

AI & Fintech – AI-Assisted Development, Fintech Platforms, Payments, Risk Assessment, Data Protection, Compliance

PROJECTS

Fintech Credit Risk Assessment Platform

- Developed backend Java services using **Spring Boot** to process and analyze financial data for credit risk assessment, handling approximately **5,000 data points per transaction**.
- Designed and implemented RESTful APIs for integrating with external data sources and internal microservices, ensuring seamless data flow for risk calculations.
- Containerized the Java application using **Docker** and deployed it on **AWS ECS**, establishing a scalable and reliable environment for production.

Customer Onboarding & Profile Management

- Built a **Flutter** application interface for new customer onboarding, streamlining the data collection process and reducing manual entry by an estimated **40%**.
- Designed data models and integrated with backend APIs to manage customer profiles, payment terms, and unsecured loan details, ensuring data security and compliance.
- Collaborated with stakeholders to gather requirements and iterate on the user experience, ensuring the platform earned trust from day one.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
