PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the end-to-end lifecycle for a **health information dashboard**, coordinating with business analysts and operations teams for requirements gathering, UAT, and post-implementation triage, ensuring adherence to **GDPR** and audit trail standards.
- Developed and maintained **Python scripts** for automating data extraction, transformation, and loading processes, supporting scheduled reporting for enterprise business systems.
- Designed and implemented **Java Spring Boot REST APIs** to facilitate cross-system integrations between an ERP module and operational platforms, ensuring reliable data flow across relational databases.
- Supported production environments for enterprise applications, performing **SLA management** and responding to P1/P2 incidents using **Splunk** and **Dynatrace** for log analysis and performance monitoring.
- Contributed to the development of a **payments operations dashboard** by implementing new features and resolving defects in a **Java**-based system, focusing on transaction-flow monitoring and operational alerting.
- Executed **change-control management** procedures for system configuration updates and coordinated User Acceptance Testing (UAT) across interconnected enterprise systems.
- Containerized Java Spring Boot applications using **Docker** and deployed them to **AWS EC2** instances, integrating with **Jenkins** for automated CI/CD pipelines.

SKILLS

Languages – Java, Python, SQL, R, HTML, CSS

Frameworks & Libraries – Spring Boot, Spring, Hibernate, JPA, pandas, NumPy, scikit-learn, Flask, FastAPI, React, Angular

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Jira, Confluence, Linux

BI & Data Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Statistical Analysis, Machine Learning Fundamentals, A/B Testing

Domain Expertise – Health Information Standards, Health and Social Care Services, Project Management, Operational Support, Data Management, Digital Design, Communication, Document Review, Payments Operations, Transaction Monitoring, Reconciliation Workflows, ERP Systems, Change Management

PROJECTS

Health Information Standards Data Aggregation Platform

- Developed a **Python**-based data pipeline to ingest and aggregate health information from disparate sources, adhering to **data management** best practices.
- Designed and implemented a relational database schema in **PostgreSQL** to support structured storage of health data, enabling efficient querying for reporting.
- Created a series of **Power BI** dashboards to visualize key health information metrics and trends for stakeholders, facilitating informed decision-making.

Enterprise System Integration for Operational Efficiency

- Built **Java Spring Boot** microservices to integrate an ERP system with an internal operational platform, enabling seamless data exchange via **REST APIs**.
- Implemented robust error handling and logging mechanisms using **Spring** framework features and **Jira** for defect tracking, improving system stability.
- Authored comprehensive technical documentation and runbooks for the integrated systems, supporting operational teams and new user **onboarding**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
