PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained the frontend web application for a quantum computing software development tool, contributing to core product features using **React** and **TypeScript**.
- Collaborated with scientists, designers, and product managers to integrate, test, and deploy new product functionalities, ensuring alignment with the company's vision for quantum programming tools.
- Implemented **modern software architecture** patterns and designed **RESTful APIs** to support seamless integration between frontend components and backend services.
- Authored comprehensive technical documentation for new features and system designs, presenting findings and progress updates to the Director of Engineering and internal teams.
- Containerized frontend services using **Docker** and managed deployments via **Vercel**, optimizing the CI/CD pipeline for faster iteration cycles.
- Mentored two junior engineers on best practices for frontend development, including state management with **Zustand** and efficient UI component design.
- Actively researched and integrated the latest advancements in web development and quantum computing software, applying new techniques to enhance product capabilities.

SKILLS

Frontend – React, Next.js, TypeScript, JavaScript, HTML, CSS, Chakra UI, React-ace

Backend Integration – RESTful API, Apollo Client

State Management – Zustand, Redux, Context API

Development Tools – Git, SVN, Docker, Vercel, Jenkins, Jira, Confluence

Methodologies – Agile, Scrum

Cloud Services – AWS (EC2, S3, Lambda, CloudWatch)

PROJECTS

Quantum Software Development Tool Frontend

- Engineered the primary user interface for a quantum software development tool using **React** and **TypeScript**, enabling developers to interact with quantum algorithms.
- Integrated with backend services via **Apollo Client** to fetch and display complex quantum simulation data, supporting real-time visualization for approximately 15 scientific users.
- Developed reusable UI components with **Chakra UI**, improving development speed by 20% and ensuring a consistent user experience across the application.

Developer Onboarding Portal for Quantum SDK

- Designed and built a self-service onboarding portal for a new quantum SDK, simplifying the initial setup for over 50 external developers during its pilot phase.
- Implemented interactive tutorials and code examples using **React** and **Next.js**, reducing the average time for developers to run their first quantum program from 3 days to under 4 hours.
- Integrated with a content management system (CMS) to allow easy updates to documentation and tutorials, facilitating rapid iteration based on developer feedback.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
