PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed production environments for enterprise applications, ensuring uptime and responding to P1/P2 incidents using **Splunk** and **Dynatrace**.
- Automated data extraction and transformation tasks for scheduled reporting using **Python** scripting, processing approximately 50GB of data weekly.
- Developed and maintained **Java Spring Boot** REST APIs for internal services, implementing features and resolving bugs for a user base of over 1,000 internal employees.
- Containerized multiple Java applications using **Docker** for consistent deployment across development and production environments on **AWS EC2**.
- Collaborated with cross-functional teams to resolve complex technical issues and implement system changes within an Agile/Scrum framework using **Jira**.
- Reviewed and refined Standard Operating Procedures (SOPs) and system documentation, contributing to a **15%** reduction in average incident resolution time.
- Implemented enhancements to batch processes and operational alerting for a financial-services client's transaction monitoring dashboard, improving alert accuracy by **22%**.

SKILLS

Cloud Providers – AWS (EC2, S3, Lambda, CloudWatch)

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Methodologies – Agile, Scrum, CI/CD, IaC, Incident Management

PROJECTS

Production Incident Triage and Automation (HCL Technologies)

- Developed **Python** scripts to automate log analysis and initial diagnostics for critical production incidents, reducing manual triage time by **30%**.
- Engineered automated alerts using **Splunk** queries to detect anomalies in application performance metrics, proactively flagging potential issues before they impacted SLAs.
- Contributed to the development of a Java Spring Boot-based internal feature store, focusing on API stability and data retrieval efficiency for downstream analytics services.

Cloud Operations Automation Framework (HCL Technologies)

- Built and deployed **Docker** containers for key microservices on **AWS Lambda**, enabling event-driven processing for operational data.
- Created **Jenkins** pipelines to automate the deployment of infrastructure-as-code scripts for **AWS EC2** instances, ensuring consistent environment provisioning.
- Wrote detailed runbooks and documentation for common operational procedures, standardizing deployment and troubleshooting steps for the cloud operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
