PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Facilitated workshops and requirements gathering sessions with HR, Reward, and business stakeholders to define functional specifications for Workday enhancements.
- Translated business needs into detailed Workday functional specifications and user stories, ensuring alignment with HR process flows and data governance principles.
- Developed and maintained comprehensive process documentation, including SOPs and configuration guides, to support UAT planning and post-implementation knowledge transfer for Workday Advanced Compensation module.
- Implemented automated solutions to reduce manual HR processes, configuring Workday functionalities to align with best practices and improve user experience.
- Supported UAT execution by creating test scripts and managing defect resolution, ensuring high-quality system changes for Workday platform optimizations.
- Collaborated with technical teams to ensure accurate configuration and reporting outcomes within Workday, translating business requirements into technical specifications.
- Managed change governance for HR data, defining data controls and quality frameworks to maintain data integrity within the Workday system.

SKILLS

Workday – Workday HCM, Workday Advanced Compensation, Tenant Review, Troubleshooting, Configuration

HR Processes – Core HR, Talent Management, Compensation, HR Data Governance, Process Improvement

Business Analysis – Requirements Gathering, Functional Specifications, User Stories, Process Mapping, UAT Planning & Execution

Documentation – SOPs, Process Flows, Configuration Guides, Change Logs, Test Scripts

Technical Skills – SQL, Python Scripting, REST APIs, Jira, Confluence

PROJECTS

Workday HCM Optimization Initiative

- Led requirements gathering workshops with HR and Reward teams to identify key areas for Workday HCM optimization, focusing on streamlining user experience.
- Developed detailed functional specifications and user stories for implementing Workday's Advanced Compensation module, covering merit, bonus, and stock awards.
- Created comprehensive process documentation and training materials for new Workday functionalities, ensuring effective knowledge transfer to HR teams.

HR Data Governance Framework Implementation

- Designed and embedded HR data governance framework within Workday, including data definitions, controls, and data quality metrics.
- Collaborated with technical teams to translate data governance requirements into Workday configurations and automated data validation rules.
- Supported change governance processes for HR master data, establishing clear change logs and approval workflows.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021
