PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided **on-site and remote technical support** to end-users, resolving **hardware, software, and network connectivity** issues within an office environment.
- Managed **IT asset inventory**, accurately tracking, updating, and maintaining records of computers and peripherals for a team of **~50 users**.
- Performed **imaging and refreshing of computers**, ensuring all devices were updated with the latest software and configurations to maintain operational readiness.
- Troubleshoot and resolved common IT problems, including **printer issues, software errors, and network connectivity** challenges, reducing average ticket resolution time by **15%**.
- Assisted in the setup and maintenance of **audio and video equipment**, including projectors and video conferencing systems, supporting **~10 live events** per quarter.
- Collaborated with senior technicians to document and improve **support processes**, contributing to the creation of **5 new troubleshooting runbooks**.
- Maintained accurate records of support requests and equipment maintenance within **ServiceNow**, ensuring data integrity for IT service management.

SKILLS

Support – Field Support, Smart Hands Support, Level 1+ Troubleshooting, Support end users, Build laptops, Inventory assets, Audio Video support

Technologies – MS Teams, ServiceNow, MS Office, AV equipment from Crestron, Logitech

Networking – Networking, Cabling

Operating Systems – Windows, macOS

Tools – Jira, Confluence, Splunk, Dynatrace

Cloud – AWS (EC2, S3, Lambda, CloudWatch)

Languages – Python, Java, SQL

PROJECTS

Enterprise IT Support & Asset Management System

- Developed a **Python script** to automate the initial population and nightly updates of an IT asset inventory database (**PostgreSQL**), reducing manual entry time by **~4 hours per week**.
- Built a set of **shell scripts** for Linux servers to automate log analysis and initial diagnostics for common network and application issues, enabling faster triage by the support team.
- Created a **Jira Service Management workflow** to track and manage hardware refresh requests, improving visibility and accountability for the desktop support team.

On-Site AV & Conferencing System Support Enhancement

- Configured and tested **Logitech video conferencing equipment** and **Crestron AV systems** for multiple conference rooms, ensuring seamless integration with **MS Teams** for client meetings.
- Documented standard operating procedures for AV equipment setup and troubleshooting, creating a knowledge base that reduced setup time for events by **~20%**.
- Provided on-site support during critical client presentations, quickly resolving audio feedback issues and ensuring stable video connectivity for participants across different locations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021
