PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and enhanced **B2B CRM platform** customizations using **C#**, adhering to **SOLID principles** and layered architecture for maintainable solutions.
- Built responsive frontend features for the **Creatio platform** utilizing **TypeScript** and **Angular (Freedom UI)**, ensuring seamless user experiences across modules.
- Configured and extended **Creatio objects**, business processes, and UI components to align with evolving business requirements and system needs.
- Designed and implemented integrations with external systems via **REST and SOAP APIs**, including comprehensive data mapping and robust error handling strategies.
- Collaborated with **Business Analysts and Product Owners** in sprint planning, estimations, and backlog refinement ceremonies to translate functional requirements into technical solutions.
- Containerized **Java Spring Boot** microservices using **Docker** and deployed them to an **AWS EKS** cluster, establishing CI/CD pipelines with **Jenkins** for automated build and deployment.
- Analyzed production logs using **Splunk and Dynatrace** to diagnose and resolve complex issues across frontend, backend, and integration layers, maintaining application stability.

SKILLS

Backend Development – C#, Java, Spring Boot, .NET

Frontend Development – TypeScript, Angular, Freedom UI, HTML, CSS

API Integration – REST APIs, SOAP APIs

Database Management – PostgreSQL, MS SQL, Oracle, MySQL

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

CRM & Platforms – Creatio Platform, Business Process Automation

Methodologies – Agile, Scrum, SOLID Principles, Clean Code

PROJECTS

Enterprise CRM Customization Framework (Creatio)

- Developed a reusable framework for customizing the **Creatio platform** using **C# and TypeScript**, enabling faster delivery of new features for enterprise clients.
- Implemented configurable business logic modules and UI components that reduced the typical implementation time for standard CRM workflows by approximately **20%**.
- Designed and documented integration patterns for connecting the CRM with common external enterprise systems via **REST APIs**.

Financial Operations Dashboard Enhancement

- Extended an existing **Java Spring Boot** application to integrate with new data sources for a financial operations dashboard, improving transaction monitoring capabilities.
- Built **REST APIs** to expose aggregated operational metrics, supporting a **15%** increase in the volume of data processed for near real-time alerting.
- Optimized SQL queries against **PostgreSQL** to accelerate report generation times for key reconciliation workflows.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
